

# AC-DMXW2v2 DMXSphere Writer DMX Addressing Box

## A: Wiring Connection

DC5V: with 5V adaptor

ADD: Blue, DAT: Green, GND: Black

## B: Address Writing

Choose the start Ch, for Example, first string of A is 0001-0090, starting Ch is 0001, press "SET", the writers show "writing address". Several seconds later, the light string turns white, then turns blue. Addressing is done.

Second string from 0091-0180, starting Ch is 0091. The remaining accordingly.
