

RE:

Watertight covers for 200A-400A CL Series panel mounts

SUBJECT

Advanced Devices, Inc. announces the introduction of stainless and thermoplastic, weatherproof covers for our CL Series cam type panel mounts.

FEATURES

- #304 stainless steel pin and spring
- .074" #304 stainless steel stand off
- Multiple mounting options (see diagrams)
- Weathertight when mounted

DESCRIPTION

.074" #304 stainless steel stand offs are approximately twice as strong as traditional aluminum. The polycarbonate caps are molded in UV resistant colors.

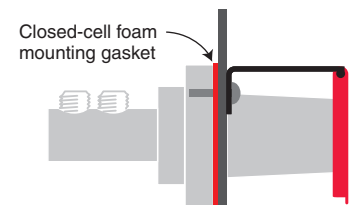

Caps contain a closed cell foam gasket of varying thickness to ensure a weathertight 90° closure.

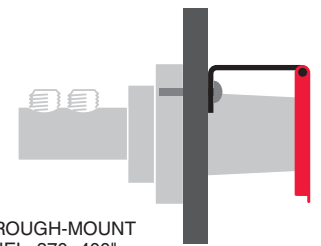

Covers have a .020" detent to accommodate customer supplied label.
