

A-405 (T4)

4-CH. CHASER

A-405 is a 4-CH. chaser with music control function and offers a 10A output power for each channel. There are four kinds of output terminals such as 110VAC / 220VAC, EEC, and Bulgin.

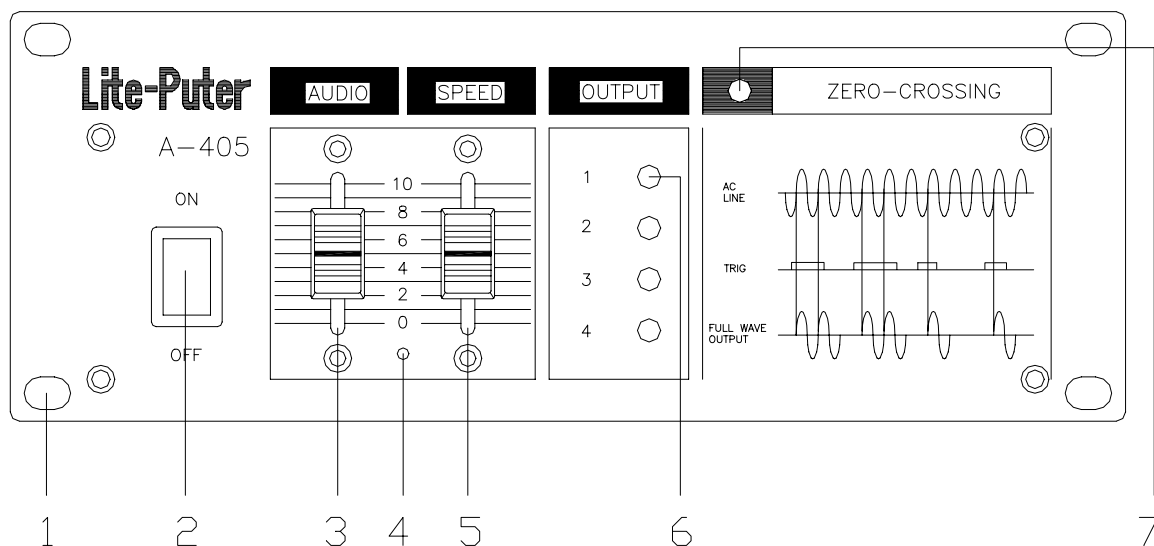

A-405 is especially designed for the necessity of Disco Nightclub, KTV, small stage and the common dance place. Therefore the simplified design on the installation and the design which is simple to operate are tally with professional and amateur's necessity.

In making use of safe design, A-405 adopts FULL WAVE ZERO-CROSSING controlled circuit, all the outputs are started to touch off from Sine and the output wave are will diminish the interference to the sound effect and controllers. Thus the special design of A-405 is provided with the safety of protecting lamp and diminishing the interference.

MAIN FUNCTION:

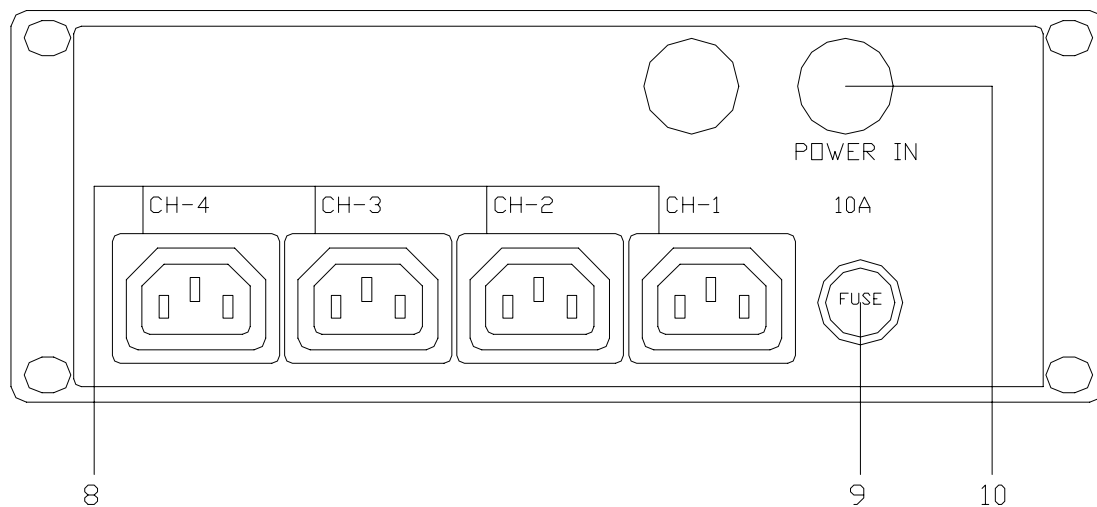

1. 4-channel chasing 1/4 chasing indicated by LED chasing speed adjustable.
2. Sound to light effect controlled inside microphone.
3. Audio sensitivity adjustable for best chasing effect.
4. Zero crossing circuit operation-suitable for transformer load.
5. Very easy to install-plug in for both power and lighting equipment.
6. For disco and family party, KTV & school.

CONTROLS & COMPONENTS (FRONT VIEW)

GENERAL FUNCTION (FRONT):

1. Cabinet fixed hold x 4.
2. Power switch.
3. Music control sensitivity.
4. Microphone.
5. Speed control.
6. 4 channel output indicator.
7. ZERO-CROSSING trig indicator.

GENERAL FUNCTION (REAR):

8. 4 Channel Output.
9. Output Load Fuse.
10. AC Power In.

SPECIFICATION:

1. Power Input: AC 110V / AC 220V
2. Load: 10A Per Channel. (Total 10A)
3. Dimension: 240 * 88 * 104 (W*H*D) mm
4. Weight: 1.4Kg
