THE MANY WAYS WE CAN HELP

TECHNOLOGY SOLUTIONS, EQUIPMENT & SUPPLIES

SOLUTIONS

Techni-Lux is an industry leader in technology solutions for interior and exterior lighting systems: entertainment, staging, shows, touring, building exteriors, retail, themed environments and houses of worship.

With over 25 years of experience, we are focused on delivering sustainable value added services beyond just equipment. Whether your project is small or large, energy saving, extravagant or all of these, we will provide a point of contact which will encompass our complete team of experts in every step of the way. We are here to help, even if you just have a simple question, are looking for a fresh concept or a complicated integration.

We can support your DIY project or offer complete assistance from concept to completion at any scale. You decide how much of the solution you wish us to assist with.

SOME OF OUR SERVICES INCLUDE:

- Concept consulting
- Design & layout assistance
- Custom build products
- Integration support
- Project packaging
- On-site project management
- Programming
- Full Tech Department/Gear Repair
- Custom cables
- Custom gobos

EQUIPMENT

Techni-Lux provides a diverse range of innovative quality products, from our lighting brands to many other famous brands, including audio lines. Products include the latest in technology, featuring LED fixtures of all types and traditional lighting.

Our warehouse stocks products like theatrical profiles and spots, moving lights, beam luminaires, gobo projectors, LED wash lights, cyc lights, linear bar lights, par cans, outdoor IP65 fixtures, follow spots, fog and haze machines, stage blinders, LED ribbon, ropelights, effect lighting, strobes, gooseneck task lights, consoles, DMX controllers and blacklight UV effects.

If you don't see it on our website or catalog, call us. We can source it for you from one of our factories or partners.

Refer to our line card for a complete listing of brands we handle.

SUPPLIES

Everyone needs expendables and consumable supplies. They are easy to forget, but boy are they necessary! Our warehouse is full of consumables to fulfill your quick demands.

Techni-Lux prides itself in supporting dealers for resale to tours, event companies, production and audio visual rental houses, live tv studios, night clubs, houses of worship, corporate tradeshows, attractions and any other industry where specialized supplies are used daily. Supplies range from specialty tapes, replacement bulbs, video lamps, filters and gels, dichroics, standard and custom gobos, gobo holders, fog and haze fluids, tie line, tie wraps, clamps, electrical connectors, power and extension cords, power strips, splitters, safety cables, duvetyne, lamp sockets, sandbags and thousands of other items.

Elite Fogging and Hazing Fluids

Elite™, Elite Pro™, Elite LL™, Elite QD™ and Elite HQD™ are high quality fogging fluids which can be used to create a white fog mist. Ranges of use include theaters, concerts, tours, clubs and all other entertainment venues where a safe, non-toxic visual medium is necessary to better define the visibility of lighting designs. The Elite™ Series of fluids are formulations of U.S.P. or high purity grade materials listed as non-hazardous by OSHA. Scientifically distilled water is used as the main component making it a water-based, low-flammable fogging fluid. By using distilled water and a filtering system, contamination of the fluid is kept to a minimal mineral concentration. Prior to filling containers, a final 1 micron dual filtering process insures a consistently pure mixture. Keeping contamination virtually non-existent helps extend the mean time between failure of fog machines thus reducing maintenance, down-time and costs.

elite

5 Gallon Pail

Elite™ - Use Elite™ to create medium density clouds of fog - neutral scent, scenting option available.

- One Quart (0.95L) **FF-ELITEQ**
- One Gallon (3.79L) **FF-ELITE1**
- 2.5 Gallons (9.46L) **FF-ELITE2**
- 5 Gallon Pail (18.93L) **FF-ELITE5**
- 55 Gallon Drum (208L) **FF-ELITE55**

Elite Pro™ - Performance formula - Use Elite Pro™ for higher density, longer lasting fog - neutral scent, scenting option available.

- 12oz SAMPLE **FF-ELITEPROQ/S**
- One Quart (0.95L) **FF-ELITEPROQ**
- One Gallon (3.79L) **FF-ELITEPRO1**
- 2.5 Gallons (9.46L) **FF-ELITEPRO2**
- 5 Gallon Pail (18.93L) **FF-ELITEPRO5**
- 55 Gallon Drum (208L) **FF-ELITEPRO55**

Gallon

Elite LL™ - Elite LL™, when used with a cooling device (chiller) creates a low lying, quick dissipating fog effect. Without the chiller, Elite LL™ creates an extra quick dissipating fog.

- 2.5 Gallons (9.46L) **FF-ELITELL2**
- 55 Gallon Drum (208L) **FF-ELITELL55**

Elite QD™ - Use Elite QD™ to create quick dissipating medium density clouds of fog.

- One Gallon (3.79L) **FF-ELITEQD1**
- 5 Gallon Pail (18.93L) **FF-ELITEQD5**
- 55 Gallon Drum (208L) **FF-ELITEQD55**

Quart

Elite EQD™ - Use Elite EQD™ to create extra quick dissipating clouds of fog.

- 5 Gallon Pail (18.93L) **FF-ELITEEQD5**
- 55 Gallon Drum (208L) **FF-ELITEEQD55**

2.5 Gallons

Elite HQD™ - Use Elite HQD™ to create quick dissipating higher density clouds of fog.

- 5 Gallon Pail (18.93L) **FF-ELITEHQD5**
- 55 Gallon Drum (208L) **FF-ELITEHQD55**

Elite Haze™ - Elite Haze™ is non-toxic, odorless and offers a long lasting hang time. Elite Haze™ is filtered and utilizes pure grade chemicals to help prevent clogging and residue build-up. Use Elite Haze™ to create a finely hazed atmosphere.

- One Gallon (3.79L) **FF-ELITEHAZE1O** oil-based
- 55 Gallon Drum (208L) **FF-ELITEHAZE55O** oil-based

- One Gallon (3.79L) **FF-ELITEHAZE1W** water-based
- 5 Gallon Pail (18.93L) **FF-ELITEHAZE5W** water-based

- One Gallon (3.79L) **FF-ELITEHAZE1N** neutral water-based for Neutron & Radiance Hazers
- 55 Gallon Drum (208L) **FF-ELITEHAZE55N** neutral water-based for Neutron & Radiance Hazers

Elite XTR™ - Elite XTR™ water-based is non-toxic, odorless and offers a long lasting hang time.

- One Gallon (3.79L) **FF-ELITEHAZEX1W** water-based
- 55 Gallon Drum (208L) **FF-ELITEHAZEX55W** water-based

Elite Foam™ - Use Elite Foam™ concentrate to produce 58 gallons of foaming solution. Dilute with water.

- One Gallon (3.79L) **FF-FOAM1**

55 Gallon Drum

ELITE SCENTS

Add a little scent to your fog. Concentrated scents for Elite and Elite Pro are sold separately in individual 1 ounce bottles. Each bottle will scent up to 4 gallons of fog fluid.

- SCENT-S** Strawberry
- SCENT-P** Pina Colada
- SCENT-T** Tropical
- SCENT-V** Vanilla
- SCENT-E** Euro/original scent

BUBBLE LIQUID

- SE-BUBBLEL1** 1 Gallon
- SE-BUBBLEL55** 55 Gallon

Bubble Liquid is water based, safe and non-toxic. Do not drink. This fluid is not to be ingested. Keep out of reach of children. Prevent contamination by sealing bottle when not in use. If the fluid is contaminated or discolored, do not use and discard. Do not mix or dilute Bubble Liquid with any other liquid. Use in a responsible manner. Areas of liquid build up or spilled liquid may cause surfaces to become slippery. If this happens, clean surfaces immediately.

ELITE SNOW™

Use Elite Snow™ to create a high volume of fluffy foam suds that are of a non-toxic, water-based solution. Ranges of use include theaters, concerts, tours, clubs and all other entertainment venues where a safe, non-toxic visual medium is necessary to better define the visibility of lighting designs.

- SE-SNOWL1** One Gallon (3.79L)
- SE-SNOWL55** 55 Gallon Drum (208L)

SNOWMASTER™ EVAPORATIVE SNOW LIQUID

SE-SNOWFG100

The real secret to successful snow fall is the special ingredients in the PATENTED Evaporative Snow™ Liquid by Snowmaster™. One gallon produces up to 60 minutes of continuous snow depending on the desired size of the snowflake. One Gallon (3.79L)

SNOWMASTER™ UV BUBBLE ADDITIVE

SE-SNOWGLOW

Snowmaster™ Exclusive - for glow under black light snow falls. Just add one or more 4 ounce bottles to one gallon of premix for UV reactant snow. UV reactant dries clear and leaves no residue. Safe to use anywhere.

Specifications: Size - 4 Ounces ■ Weight: 0.16 kgs/0.35 lbs

SANDBAGS - FILLED AND UNFILLED

Sandbags provide stability and are useful for staging, theatrical and grip applications.

Our industrial sandbags are manufactured using a high performance denier polyester canvas and stitched to mil-spec standards, using heavy duty bonded polyester thread for structural integrity. The high strength handles are made of polypropylene strap webbing, and sewn on using a military cross stitch and box pattern to ensure a durable and reliable attachment. All seams are double rolled for extra strength and made to endure the stress of production use, indoors and outdoors. Available in 15, 25, and 35 pounds and feature a weight label tag for quick visual weight identification. Equipped with plastic moisture linings which help in keeping the precision weighed sand dry. Empty zipper self-fill types or sand filled. Color: Black

SAFETY CABLES

SAFETY CABLES

Every fixture that hangs overhead should always be equipped with a safety cable. In the event that a clamp should fail or is improperly tightened, a fixture could fall from the ceiling or truss and possibly cause personal injury or damage to equipment.

WARNING:

Safety cables are not to be used to hold anything up (temporary or permanently). They are specifically meant as a safety for failure of another device, only as backup. All safety cables should be inspected before and after every use. If there is any damage, loose connections or crimps, or frayed cable, discard and use another verified safety cable.

SC-18B 18" black w/lock
SC-18S 18" silver w/lock

Specifications: Galvanized steel aircraft cable ■ 18 inch long ■ Carabiner C-hook clip and loop
 ■ Colors: Black or Silver

SC-30B 30" black w/lock
SC-30S 30" silver w/lock

This steel cable assembly is secured around a pipe or truss and a stage lighting fixture then clipped on itself using the attached spring clip. Safety cables are mandatory in most stage rigging applications as they afford an extra measure of security and protection from possible support structure failure.

Specifications: Galvanized steel aircraft cable ■ Cable Length: 30 inch long Cable ■ Cable Construction 7x7 ■ Carabiner C-hook clip and loop ■ Weight: 0.11 kg/0.25 lbs ■ Color: Black Powder Coated or Silver finish

SC-30SS 30" Stainless Steel - w/stainless spring clip

This safety cable is ideal for harsh, wet and outdoor environments. The 1/8" 7x19 cable, the 5/16" spring hook and the ferrules are all made of stainless steel.

Specifications: Stainless mega steel aircraft cable ■ Cable Length: 30" ■ Cable Construction: 7x19 ■ Spring Hook 5/16" ■ Weight: 0.11 kg/0.25 lbs ■ Color: Stainless Steel

SC-A30S 30" silver w/lock
 Accessory Thin 3/64" Safety Cable

Specifications: 3/64" Galvanized steel aircraft cable ■ 30 inch long ■ Carabiner C-hook clip and extended loop ■ Copper ferrules ■ Color: Silver

AIRWALL HANGERS

CL-AIRWALLHANG

ALUMA-LOK is the industry standard for airwall track rigging. It is a tool for professional riggers, and for audio and video technicians trained in rigging for their specific applications. Utilize the built-in airwall track found in hotels, meeting rooms and venues around the world to hang lighting, speakers, cables, decor and more. Forget the time consuming hassles of more complicated rigging points and chain motors. Load rated at 750 lbs (340 kgs) UDL.

The ALUMA-LOK is designed to clamp to most airwall tracks with a slot opening of 1/2" to 1-1/2". The airwall track is captured between the body of the ALUMA-LOK and the two hardened steel gripping arms. This operation is accomplished via the steel thumb knobs and an optional allen wrench, minimizing the number of tools required, and eliminating the possibility of damaging the airwall track by over tightening. This is the only product endorsed for use in Marriott hotels worldwide. Made in the U.S.A.

Specifications: Load Rated: 750 UDL Working Load Rating ■ Safety factor of 7:1 minimum ■ Mounts to airwall tracks with an opening from 1/2" to 1-1/2" ■ Attachment points: Three 1/2" Bolt (13TPI) locations, two 5/8" Shackle holes, one 2" diameter clamp area ■ Size: 10" x 8.5" x 2" ■ Weight: 4.10 kgs/9 lbs ■ Color: Extruded aluminum silver finish

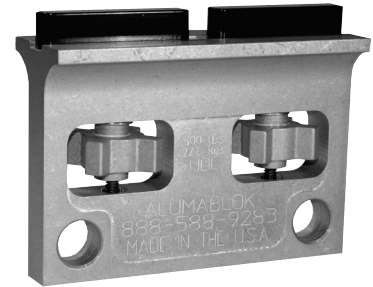

ALUMA-LOKs holding a smartcar @ 1,753 lbs!

CL-AIRWALLBLOK

ALUMA-BLOK is designed as your number one solution for cable picks, wire rope assemblies and speaker dead hangs from airwall tracks. Load rated at 500 lbs (227 kgs) UDL this is the middle man of the ALUMA-LOK family!

Specifications: Load rated for 500 lbs. (227 kgs) UDL ■ Safety factor of 7:1 minimum ■ Solid CNC machined aluminum construction ■ Hardened steel grip arms ■ Single 1/2"-13 TPI threaded attachment points ■ Two 5/8" shackle points for dead hanging ■ Size: 6" x 4.25" x 2" ■ Weight: 2.04 kgs/4.5 lbs ■ Color: Extruded aluminum silver finish ■ Made in the U.S.A.

CL-AIRWALLMINI

ALUMA-MINI provides for safe and quick cable pick points across an airwall. Load rated at 250Lbs (113Kgs) UDL this is the mini of airwall track rigging.

Specifications: Load rated for 250 lbs. (113 kg) UDL ■ Safety factor of 7:1 minimum ■ Solid CNC machined aluminum construction ■ Hardened steel grip arm ■ Two 1/2" shackle bolt attachment points ■ Size: 3" x 4.25" x 2" ■ Weight: 1 kg/2.2 lbs ■ Color: Extruded aluminum silver finish ■ Made in the U.S.A.

MEGA-AIRWALL TRACK HANGER 7"

CL-AIRWALL7

The Mega-Airwall Hanger 7" is 750 pound load rated. The Mega-Airwall Hanger will fit a wide variety of air wall tracks. The Mega-Airwall Hanger engages the airwall track the full length of the hanger's 7 inches. The Mega-Airwall Hanger panels move outward and apart at the top to engage the airwall track. The tops of the hanger panels have a continuous lip that rests on the load bearing portion of the airwall track. These panels lock onto the track without damage to the track. Turning the center knurled wheel assembly easily expands the panels to lock the Mega-Airwall Hanger into the track structure. The 1/8" hair pin safety is then applied to the wheel to lock the wheel rotation. The Mega-Airwall Hanger has a center pocket location to clamp a light fixture, coupler, or attach slings. Additionally this 7" model has two attachment holes. The Mega-Airwall Hanger will fit into slot sizes from .8" to 2.25" wide and depths from .3" to 3". It will fit Hufcor type 11, 38, and 40 tracks, IAC .229", .313" and .500" tracks, Modernfold number 7, 10, 15, 16, 17 track, Panelfold type 5, 7, and 8 track, Emco Systems 8111, 8221, 8321, 8141, 8151, 8241, 8331, 9110, 9112, 9120, 9122, 8331, and 8431, Kwik-Wall Track with side by side carriers, and other manufacturer's tracks as well. The Mega-Airwall Hanger will also fit Unistrut style channel. Made in the U.S.A.

Specifications: Load Rated: 750 lbs SVWL Working Load Rating ■ Safety factor of over 14:1 ■ Mounts to airwall tracks with an opening from 0.8" to 2.25" ■ Attachment points: Two 5/8" Shackle holes (0.88") and one 1.9" diameter clamp area ■ Size: 7" x 8.9" x 2.25" ■ Weight: 1.82 kgs/4 lbs ■ Color: Extruded aluminum natural mill silver finish

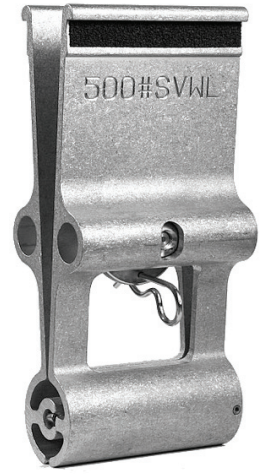

MEGA-AIRWALL TRACK HANGER 4"

CL-AIRWALL4

The Mega-Airwall Hanger 4" is 500 pound load rated. The Mega-Airwall Hanger will fit a wide variety of air wall tracks. The Mega-Airwall Hanger engages the airwall track the full length of the hanger (4"). The Mega-Airwall Hanger panels move outward and apart at the top to engage the airwall track. The tops of the hanger panels have a continuous lip that rests on the load bearing portion of the airwall track. These panels lock onto the track without damage to the track. Turning the center knurled wheel assembly easily expands the panels to lock the Mega Airwall Hanger into the track structure. The 1/8" hair pin safety is then applied to the wheel to lock the wheel rotation.

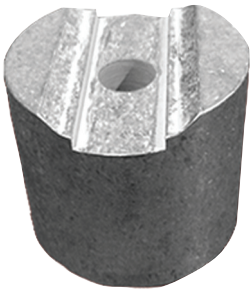

This Mega-Airwall Hanger has a center pocket location to clamp a light fixture, coupler, or attach slings. The Mega-Airwall Hanger will fit into slot sizes from .8" to 2.25" wide and depths from .3" to 3". It will fit Hufcor type 11, 38, and 40 tracks, IAC .229", .313" and .500" tracks, Modernfold number 7, 10, 15, 16, 17, track, Panelfold type 5, 7, and 8 track, Emco Systems 8111, 8221, 8321, 8141, 8151, 8241, 8331, 9110, 9112, 9120, 9122, 8331, and 8431, Kwik-Wall Track with side by side carriers, and other manufacturer's tracks as well. The Mega-Airwall Hanger will also fit Unistrut style channel. Made in the U.S.A.

Specifications: Load Rated: 500 lbs SVWL Working Load Rating ■ Safety factor of over 14:1 ■ Mounts to airwall tracks with an opening from 0.8" to 2.25" ■ Attachment point: one 1.9" diameter clamp area ■ Size: 4" x 8.9" x 2.25" ■ Weight: 1 kgs/2.2 lbs ■ Color: Extruded aluminum natural mill silver finish

AIRWALL ALUMA-PIPE® 1.5" NPT THREADED PIPE

CL-AIRWALLPIPE150

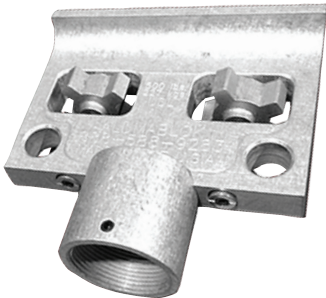

ALUMA-PIPE® is designed as your go to solution for hanging small format projectors from airwall tracks. Load rated at 500 lbs (227 kgs) UDL this allows the use of a standard Chief MFG brand ceiling projector mount using a 1-1/2" NPT drop down pipe. Fits both the ALUMA-LOK® and ALUMA-BLOK®!

Use this tool and an ALUMA-BLOK® or ALUMA-LOK® to hang (1) small format projector using a factory installation bracket. Hang small data projectors using the standard 1-1/2" drop down pipe.

Specifications: Load rated for 500 lbs. (227 kgs) UDL ■ Safety factor of 10:1 ■ attaches with 1.50" NPT pipe thread and 1/2" x 13 TPI bolt hole ■ Material: Aluminum with tumbled mill finish ■ Made in the U.S.A. ■ Size: 2.25" x 2" ■ Weight: .205 kgs/0.45 lbs ■ Color: aluminum silver finish

AIRWALL ALUMA-PIPE® 1.25" NPT THREADED PIPE

CL-AIRWALLPIPE125

ALUMA-PIPE is designed as your go to solution for hanging small format projectors from airwall tracks. Load rated at 500 lbs (227 kgs) UDL this allows the use of a standard Chief MFG brand ceiling projector mount using a 1-1/4" NPT drop down pipe. Fits both the ALUMA-LOK® and ALUMA-BLOK®!

Use this tool and an ALUMA-BLOK® or ALUMA-LOK® to hang (1) small format projector using a factory installation bracket. Hang small data projectors using the standard 1 & 1/4" drop down pipe.

Specifications: Load rated for 500 lbs. (227 Kg) UDL ■ Safety factor of 10:1 ■ Attaches with 1.25" NPT pipe thread and 1/2" x 13TPI bolt hole ■ Material: Aluminum with tumbled mill finish ■ Made in the U.S.A. ■ Size: 2.25" x 2" ■ Weight: .205 kgs/0.45 lbs ■ Color: aluminum silver finish

C-CLAMPS

PURLIN CLAMP

CL-PURLIN38B

The Purlin Clamp is perfect for installing almost anything to bar joists, purlins and I-beams up to 1" thick. The Purlin Clamp has 3/8"-16 tpi fasteners. 3/8"-16 tpi x 2.5" fully threaded square head set screw is provided for locking onto the structural member. A 3/8"-16 x 1? grade 5 Hex Head Bolt is supplied to connect the load. Or use a 3/8"-16 tpi threaded rod to support a load at any length. The Purlin Clamp has Micro-grooves for a secure connection to beam. The Purlin Clamp body is extruded from aircraft grade aluminum and is 1" thick.

The Purlin Clamp is also available with 3/8"-16 tpi fasteners. 3/8"-16 tpi x 2.5" fully threaded square head set screw is provided for locking onto the structural member. A 3/8"-16 x 1? grade 5 Hex Head Bolt is supplied to connect the load. Or use a 3/8"-16 tpi threaded rod to support a load at any length.

Specifications: Working Load Limit: 300 lbs for 3/8" ■ Hardware: 3/8" x 2-1/2" Square Head Set Screw, .5 x 1" Hex Head Cap Screw, 1" Belleville Washer ■ Size: 3 3/8" x 3 7/8" x 1" ■ Weight: .40 lbs ■ Color: Black Anodized

FASTLOCK CLAMP

CL-FASTLOCK

The "Fast-Lock" clamp is manufactured of aluminum and is designed to insure secure hanging of Giotto and Palco fixtures from truss bars or scaffolding with a pipe diameter of between 1.5 and 2 inches.

There are 8 slots on the underside of **SGM GIOTTO** fixtures for quick fitting the clamps, which may be positioned horizontally, vertically or at an angle of 15°, according to the fixture base.

Specifications: Material: Aluminum ■ Weight: .55 kgs/1.22 lbs ■ Size: 6.25" high x 5.5" wide x 1.13 thick ■ Finish: natural aluminum

C-CLAMP MEDIUM DUTY

CL-C

Medium duty C-clamp. The most economical clamp available. Attaches to 1-2 inch pipe. Ideal for small effects, pin-spots and par-cans. Weight: .45 kgs/ 1 lbs

MINI CLAMP

CL-MINI/B Black

CL-MINI/P Polished

The professional mini clamp comes in polished aluminum or black finish with a 3/8" mounting bolt. Used for pipe sizes ranging from 1/2" to 2" maximum.

Specifications: Capacity: 20 kgs/ 44 lbs ■ Weight: .172 kgs / .381 lbs ■ Color: Polished - Black Anodized

MEGA CLAMP

CL-MEGA/B Black - Anodized

CL-MEGA/BSS Black - Heavy Duty with stainless hardware

CL-MEGA/P Polished - Clear Anodized

A professional high quality pipe clamp. This very lightweight clamp is made out of aluminum with the strength of steel. Designed for pipe sizes ranging from 1" to 2" maximum with 1/2" x 3" square head set bolt, 1/2" grade 5 hex head mounting bolt, and Belleville spring washer for pan tensioning device. All hardware is Stainless steel for outdoor use.

Specifications: Safe vertical working load: 272 kgs/600 lbs ■ Size: 4" x 6.3" x 1" ■ Weight .396 kgs/.875 lbs

Micro Clamp

CL-MICRO/B Black - Anodized

CL-MICRO/P Polished Silver - Clear Anodized

The Micro Clamp is ideal for hanging miniature fixtures like Par16s onto a small pipe or tube. Made from high tensile aircraft aluminum. Solid design grips pipe with micro grooves, has spring loaded pan adjustment, and has 5/16" fasteners.

Specifications: Fits pipe sizes from 3/8" to 1" ■ Capacity: 125 lbs ■ Size: 4" x 2.5" x .63" ■ Weight: 0.1 kgs/.22 lbs

C-CLAMP

CL-STEEL1

Heavy duty steel pipe clamp with 1/2" mounting bolt. Pipe diameter: 1" to 2" ■ Size: 6.75"4.25" x 2.13" ■ Weight: .94 kgs/2.07 lbs

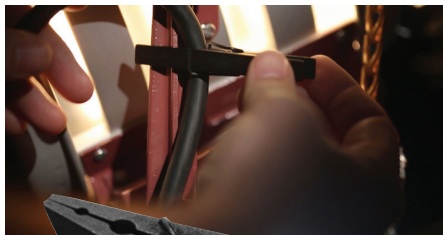

HEAVY DUTY QUICK RELEASE CLAMP

CL-HDQ

Heavy duty quick release clamp. Special mechanism allows clamp to release from fixture. Fixed pipe sizes from 1 to 2 inches. Weight: .45 kgs/ 1 lbs

CLIPS & SPRING CLAMPS

bulletX CL-BULLETX

bulletX is the next generation of lighting expendable evolution. It's not just a clothespin any longer. bulletX is made by the industry for the industry. If you want to have the highest production value appearance, the bulletX is production black to blend in on your lighting fixtures.

Why risk a "C47" releasing from the kino door during a shoot because the jaw opening is too small? bulletX has a larger double notched 1" jaw opening and a stronger spring. bulletX is designed with a tapered nose for small spaces, which means no more struggling with converting a C47 to a bullet. Use the bullet nose feature to pull out hot scrims and keep from burning gel in fresnel lights. Old wood clothespins, number 1 spring clamps and binder clips will be a thing of the past on your tool belt. The bulletX saves valuable time and replaces them all.

Specifications: Heavy duty black oxide torsion spring ■ Dual notched jaws for superior gripping ■ Tapered bullet nose for narrow spaces ■ Size: 3.25" Length x 1" Width ■ Weight: .006 kgs ■ Color: Production Black matte finish ■ Material: Birch wood

CLAMP ADAPTERS

OMEGA CLAMP CL-OMEGA1

The "Fast-Lock" clamp is manufactured of aluminum and is designed to insure quick and secure hanging of P-2, P-5, Q-2, Q-7, X-2 and XC-5 Mobile fixtures. The Omega clamp serves as an interface between the unit and a standard clamp of your choice. No tools are required to mount the omega, however tools maybe required to mount the clamp of your choice to the Omega.

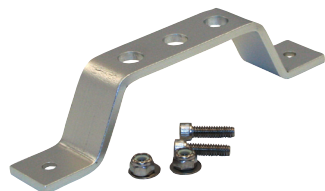

Specifications: 1/2" / 13 mm bolt hole for standard clamp mounting ■ Mounts with two fast lock pins - spaced apart 106 mm on center ■ Weight: .20 kgs/.45 lbs ■ Size: 5.5" long x 1.375 wide x 1.75" tall ■ Color: Black ■ Material: Aluminum

OMEGA MOUNT FOR VECTORLED160S CL-OMEGA2

Use to mount a standard pipe clamp to the VectorLED160S units.

Specifications: 1/2" / 13 mm bolt hole for standard clamp mounting ■ 6 mm bolts to fixture ■ Material: Steel ■ Weight: .20 kgs/.45 lbs ■ Size: 5.5" long x 1.375 wide x 1.75" tall ■ Finish: Black

OMEGA MOUNT FOR LEDPANEL36 with 1/2" clamp holes CL-OMEGA3

Use to mount a standard pipe clamp to the LEDpanel36 units.

Specifications: 1/2" / 13 mm bolt hole for standard clamp mounting ■ 6 mm bolts to fixture ■ Material: Steel ■ Weight: .20 kgs/.45 lbs ■ Size: 5.5" long x 1.375 wide x 1.75" tall ■ Finish: Natural aluminum

OMEGA CLAMP FAST LOCK FOR SGM IDEA LED units with 1/2" clamp hole CL-OMEGA4

Use to mount a standard pipe clamp to the SGM Idea LED units units.

Specifications: 1/2" / 13 mm bolt hole for standard clamp mounting ■ Fast locks to fixture ■ Weight: .364 kgs/.8 lbs ■ Size: 5.25" long x 2.0" wide x 2.0" tall ■ Color: Black ■ Material: Steel

OMEGA CLAMP FOR EHRGEIZ NOVA/SUPERNOVA CL-OMEGA5 (sold in pairs)

Omega Fast Lock Mount for Ehrgeiz Nova/Supernova units with 12 mm clamp hole. Use to mount a pipe clamp to the Ehrgeiz Nova/Supernova units.

Specifications: 12 mm bolt hole for clamp mounting ■ Fast locks to fixture ■ Material: Steel ■ Weight: .222 kgs/.49 lbs ■ Size: 5.313" long x 1.625" wide x 1.75" tall ■ Finish: Black

OMEGA POI FOR SGM

CL-OMEGA10/B

The POI Omega Bracket is a stainless steel anti-corrosion mounting solution intended for fastening a wide range of SGM POI lighting fixtures to a surface. Multiple clamps can be attached to this bracket for permanent installation. Outdoor rated omega bracket for SGM architectural fixtures with M10 mounts. Manufactured out of stainless steel. Some fixtures may require two of these omega clamps. Clamps sold separately.

Specifications: 1/2" / 13mm bolt hole for standard clamp mounting ■ mounts with two M10 bolts that are included ■ Spaced apart 106mm on center ■ Material: Stainless Steel ■ Weight: .3 kgs/.7 lbs ■ Size: Inches 5.4 long x 2.3 wide x 1.4 height ■ Finish: Black

OMEGA CLAMP FOR EHRGEIZ HELIOS+19Z

CL-OMEGA6

Omega Fast Lock Mount for Ehrgeiz Helios+19z units with 13 mm - 1/2" clamp hole
Use to mount a pipe clamp to the Ehrgeiz Helios+19z units.

Specifications: 1/2" / 13 mm bolt hole for standard clamp mounting ■ Fast locks to fixture ■ Material: Steel ■ Weight: .289 kgs/ .64 lbs ■ Size: 6.75" long x 1.5" wide x 1.5" tall ■ Finish: Black

CUBE ADAPTER

CL-0055

Cube adapter for yoke mounting to tripod stands with Baby 5/8"

Specifications: Bolt: 3/8" diameter ■ Size: 2.5"x2.25"x1.5" ■ Weight: 0.15 kgs/0.33 lbs

ADAPTOR FOR MOUNTING STAND TO BOLT

CL-0065

Specifications: Aluminum adaptor to 1-1/8" (28 mm) stud, with 3/8" mounting bolt head ■ Size: 1.75" x 1.75" x 5.75" ■ Weight: 0.286 kgs/0.63 lbs

TV to Motion Picture adapter with 1/2" bolt

CL-TVMP

The TV to Motion Picture adapter is designed to attach on the yoke of a lighting fixture and be mounted to a stand or fitted into a junior receiver. The TVMP adaptor is used with any luminaire that has a bale (yoke) with a bolt hole. This adaptor allows the instrument to be stand mounted on either a "Baby" stand with a 5/8th inch stud or a "Junior" stand with a 1 1/8 inch receiver for use on any location or studio where a light cannot be hung using a clamp. Features a heavy duty, easy to tighten knob.

Specifications: Material: Steel ■ Mounting bolt: Hex bolt: 1/2"-13 UNC ■ Overall Size: 7.5" x 4.5" x 2" ■ Weight: .30 kgs/0.66 lbs ■ Color: Silver

UNI-BOLT

CL-UB2B

Uni-Bolt for fastening fixtures or pipes to strut channel. Insert the Uni-Bolt into standard 1-5/8 inch by 1-5/8" strut channel, rotate 90 degrees and spin the 2" diameter knurled disk to lock into the channel. Black finish.

Specifications: Safe vertical working load: 227 kgs/500 lbs. ■ Bolt: 1/2-13" x 1" long ■ Size: 2" x 2" x 2.5" ■ Weight 1 lb ■ Color: Black Anodized/Zinc Plating

CEILING T-BAR TWIST FASTENER CLIP

CL-CTC8/B

The ceiling T-Bar Clip is for fastening items that weigh 25 lbs or less to a standard drop ceiling T-Bar. It simply twists onto the T-bar of the acoustical ceiling providing a number 8 stud thread to mount to. Includes PAL Nut. Great for mounting small fixtures like Gantom lighting directly to the T-Bar in a low profile and clean manner.

Specifications: Safe vertical working load: 25 lbs ■ Bolt: 8-32 x 7/16" long ■ Size: 1.5"x1.12"x0.75 ■ Weight 0.0014 kgs / .0031 lbs ■ Color: Black Anodized/Zinc Plating

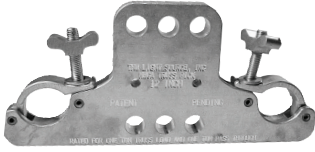

TRUSS PICKS

TRUSS PICK POINTS

The Mega-Truss Pick is CNC machined from solid 1" x 6" 6061 T-6 aluminum billet. Two pockets cut into the Mega-Truss Pick have coupler style aluminum pivoting links, half inch swivel nuts, and solid wing nuts to completely wrap around the truss tube to secure it. The Mega-Truss Pick has multiple shackle holes for attaching the truss to a shackle, motor, or chain hook. This allows for a center of lift adjustment for special situations. The Mega-Truss Pick can suspend up to one ton of truss load, plus an additional one ton load suspended under the truss.

The Mega-Truss Pick weighs less than 4 pounds for the 12" truss version. Other models are available for 16", 18", 20.5", 24" and 30" truss.

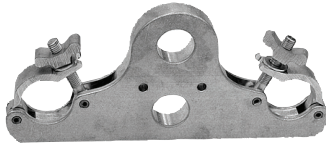

CL-TRP12MH

Specifications: 12" Truss pick ■ Safe Vertical Working Load - 1 ton truss / 2 ton total ■ Size: 1" thick x 6" tall x 13-3/8" long ■ Weight: 1.82 kgs/4 lbs ■ Color: Aluminum finish

CL-TRP20MH

Specifications: 20.5" Truss pick ■ Safe Vertical Working Load - 1 ton truss / 2 ton total ■ Size: 1" thick x 6" tall x 21.9" long ■ Weight: 3.18 kgs/7 lbs ■ Color: Aluminum finish

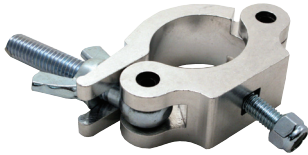

CL-TRP20

Specifications: 20.5" Truss pick ■ Safe Vertical Working Load - 1 ton truss / 2 ton total ■ Size: 1" thick x 6" tall x 21.9" long ■ Weight: 3.18 kgs/7 lbs ■ Color: Aluminum finish

WRAPAROUND COUPLERS

CHEESEBOROUGH

Cheeseborough coupling clamps are a great way of rigging pipes and truss. Made of polished aluminum. Does not dent truss. Fastens onto 1.9" to 2" outer diameter pipes.

SLIM TYPE HALF COUPLER

CL-CBHALF/N

Narrow width single half coupler with 3/8" bolt mount.

Specifications: Size: 4.5" x 5" x 1.2" ■ Load Capacity: 650 lbs ■ Weight: 0.35 kgs/0.8 lbs ■ Color: Silver

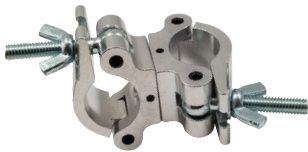

HALF COUPLER

CL-CBHALF

Single half cheeseborough coupler with 1/2" bolt mount.

Specifications: Size: 5.5" x 4.5" x 2" ■ Load Capacity: 1100 lbs ■ Weight: 0.57 kgs/1.3 lbs ■ Color: Silver

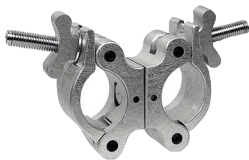

SWIVEL COUPLER

CL-CBSWIVEL

Two halves which swivel/turn freely to any angle needed. CB Swivel can be locked in parallel 180 degrees, or perpendicular 90 degree positions using the included locking pin.

Specifications: Size: 7.5" x 4.5" x 2" ■ Load Capacity: 1100 lbs ■ Weight: 1.07 kgs/2.4 lbs

MEGA COUPLER SWIVEL - ALUMINUM FINISH

CL-CBSWIVEL/U

The Swivel Coupler will fasten from 1-1/4" pipe (1.660" OD) to 2.050" OD truss tube. The Swivel-Coupler has wide wing nuts for fastening the clamp to the pipe or tube. Made in the U.S.A.

Specifications: Load Capacity: SWL 1100 lbs ■ Minimum Size 1.25" pipe, 1.66" OD pipe ■ Maximum Size 1.5" pipe, 1.90" OD pipe, 2" OD truss tube ■ Size: 7.5" x 4.5" x 2" ■ Weight: 1.07 kgs/2.4 lbs ■ Aluminum finish

SPIROL ROLL PIN

CL-CBPIN

Steel Spirol roll pin used to lock the **CL-CBSWIVEL** from rotating in either 180 or 90 degree position.

Specifications: M10 diameter ■ Material: Steel

CL-CBPIN/U

Steel spiral roll pin used to lock the mega coupler swivel clamp in a stationary position.

Specifications: 7/32 diameter x 2 inches long ■ Material: Steel

HALF COUPLER

CL-CBHALF/LP

Low profile single half coupler with 3/8" bolt mount.

Specifications: Size: 4" x 3.3" x 1.2" ■ Load Capacity: 165 lbs ■ Weight: 0.15 kgs/0.34 lbs

COUPLER RING HOOK

CL-CBRING

Single half coupler with a hook ring.

Specifications: Size: 5.5"x5.5"x2" ■ Load Capacity: 1,100 lbs ■ Weight: .6 kgs/1.3 lbs

MEGA COUPLER

CL-MEGA/CB Silver

CL-MEGA/CBSS Aluminum Finish with Stainless steel hardware

The Mega-Coupler has solid nut tabs that won't break off. Mega-Coupler uses standard half inch by 1-1/4 inch long hex head grade 8 bolts to secure your load. Bolt head locks into hex milled pocket so that you can tighten the nylock nut while the clamp is installed. Has industry compatible 14 mm thick base. The Mega-Coupler fastens from (1-1/4" Pipe) 1.66" OD to 2" OD truss tube.

Specifications: 1/2-13 x 1 1/4" Hex Head grade 8 zinc plated steel bolt with nylock nut 1" Belleville Washer ■ Minimum Size 1.25" pipe, 1.66" OD pipe ■ Maximum Size 1.5" pipe, 1.90" OD pipe, 2" OD truss tube ■ Safe vertical working load: 1,100 lbs/500 kgs ■ Size: 5.5" x 4.5" x 2" ■ Weight .544 kgs/1.2 lbs ■ Color: Aluminum or Stainless Steel

MEGA TCB

CL-MEGA/TCB

The TC Clamp will fasten from 1.5" to 2" OD tube. The TC Clamp has a 2-1/2" T-handle so no tools are required to fasten to the pipe. 1.25" x 1/2"-13 TPI Grade 8 fastener, Nylock Nut and 1" diameter Belleville Spring washer are provided for connecting your load.

Specifications: Minimum Size 1.5" OD tube, 1.25" pipe, 1.66" OD pipe ■ Maximum Size 2" OD truss tube, 1.5" pipe, 1.90" OD ■ Safe vertical working load: 204.5 kgs/450 lbs ■ Size: 4-5/8" tall x 4" wide x 1-3/16" thick ■ Weight: .567 kgs/ 1.25 lbs ■ Color: Black Anodized

QUICK HOOK

CL-QHOOK/B

The Quick Hook Clamp will fasten to a tube from 1.88" to 2" outer diameter. This clamp has a 3" T-handle so no tools are required to fasten to the pipe. With the triggering mechanical design, clamp is made to help the person rig heavy luminaries with less effort and saving time. This clamp holds the lighting fixture while you fasten it to the pipe or truss.

Specifications: Minimum Size 1.88" OD tube ■ Maximum Size 2" OD truss tube ■ Mounting bolt: 1/2" Thread x 1.5" long with lock nut and washer ■ 3" T-Handle knob on M12 thread ■ Safe vertical working load: 200 kgs/440 lbs ■ Size: 7" high x 5" deep x 1.5" wide ■ Certified: TUV ■ Weight: .657 kgs/ 1.45 lbs ■ Material: 6061 Aluminum ■ Color: Black Anodized

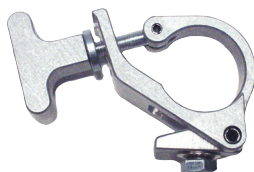

MEGA CLAW

CL-CLAW/B Black

CL-CLAW/P Polished

The Mega-Claw was designed for intelligent lighting. The instant it is put over the pipe, the weight of the fixture is supported.

Specification: Safe Vertical Working Load: 500 kgs/ 1,100 lbs ■ Size: 6" x 4.375" x 2" ■ Weight .9 kgs/2 lbs ■ Color: Black - Anodized, Polished - Clear Anodized

MINI CLAW

CL-CLAWMINI/P Polished

The Mini-Claw clamp is made of a lightweight high strength aluminum alloy. A quick locking jaw allows it to hold the weight of the fixture while fastening. The large aluminum T-handle with captive thrust washer makes it easy to tighten down firmly. Fits on outer diameter pipes from 1.66" to 2". Does not dent truss tubing.

Specifications: Maximum load capacity of 45 kgs/100 lbs ■ Size: 5" x 4.25" x 2" ■ Weight .39 kgs/ .86 lbs ■ Color : Polished aluminum alloy

O-CLAMP

CL-O

Easily and safely attaches to round truss, pipe or light stand crossbars. Provides very solid grip without scratching or marring stand surface. **Specifications:** Fits 1-1/2" and 2" tubes ■ Weight: .23 kgs/5 lbs

APPLICATORS

No more bending, kneeling, ripping or tripping over loose cords.

GAFFGUN™

Save time, money, and your back.

Long telescoping extension handle

**GAFFGUN APPLICATOR BUNDLE
w/3 CABLEGUIDES & FLOORGUIDE
TO-GAFFGUN/G20**

The GaffGun™ is the single greatest advancement in gaffer's tape since the tape was invented. Saving over 90% of the time to lay gaffer's tape over cables, it simplifies your job while saving time, money and your back. Using patent-pending CoreLock™ technology, you can use any type or size of GaffGun™ tape on the same device. Cables don't even have to be straight - the GaffGun™ straightens and centers your cable(s) and then lays tape on them.

Bundle Includes: The GaffGun™ ■ Long telescoping extension handle ■ 3 CableGuides - Small, Medium, Large ■ FloorGuide

Specifications: Size: 10"L x 6"W x 7"H ■ Weight: 4.8 kgs/ 10.5 lbs ■ Heavy duty marine grade material ■ Color: Black

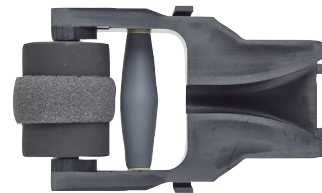

GAFFGUN™ Accessories

CABLEGUIDE™ - Small, Medium, Large

Used with the GaffGun™, the patent-pending CableGuide™ Small allows 2" GaffGun™ tape to be used with 1 to 2 standard XLR cables, or fewer cables of larger diameter. *Note - this CableGuide™ ships with all new GaffGun® purchases.

CableGuide™ Medium allows 3" GaffGun™ tape to be used with 2 to 3 standard XLR cables, or fewer cables of larger diameter.

CableGuide™ Large allows 3" GaffGun™ tape to be used with 3 to 5 standard XLR cables, or fewer cables of larger diameter.

FLOORGUIDE™

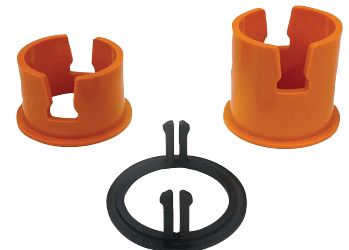

Used with the GaffGun™, the patent-pending FloorGuide™ allows all widths of GaffGun™ tape to be applied straight to a floor. This is useful when using GaffGun™ vinyl floor tape and double-sided carpet tape.

GAFFGUN™ UNIVERSAL CORE ADAPTER

TO-GAFFGUN/A2

The Universal Core adapter gives you the option to choose between using the GaffGun™ CoreLock™ tape or a tape brand of your choosing. Each Universal Core comes with a 2" and 3" adapter and one Snap Ring.

INDUSTRY SPECIFIC

A lightweight solution to avoid strain and injury.

CAM WRENCH
TO-CAMWRENCH

The KRE Electric Cam Wrench is a simple tool made of durable high-strength cast aluminum so it's lightweight allowing individuals working with cam type connectors to avoid repetitive stress and apply leverage when rotating cam connectors. This will allow for quicker, safer, less strain, full connections wherever cam type locking devices are used. The Cam Wrench's insulated grip handles cushion your grip, which reduces muscle strain. The Cam Wrench has a steel ring for lanyard attachment.

Specifications: Weighs: 0.254 kgs/0.56 lbs ■ Rough Size: 8" x 2.5" x 2" ■ Finish: Natural Aluminum

MONGO WRENCH
TO-TOOLMONGO

The Mongo Wrench is a massive wrench, machined out of solid aircraft aluminum billet. The Mongo-Combo wrench will fasten everything a Mega-Combo Wrench can plus the Mega-Coupler Nut, other coupler wing nuts, and also serves as a bottle opener!

Specifications: Weighs: 0.68 kgs/1.5 lbs ■ Size: 1" thick by 9" long ■ Finish: Natural Aluminum

MEGA-COMBO WRENCH
TO-TOOLMEGA

The Aluminum Mega Combo Wrench is great for the lighting technician on the go! Handy pocket wrench fits onto a key chain for easy access to adjust lights as needed.

For professional pipe clamps, one tool can adjust 3 types of clamp bolts. The Aluminum Mega Combo Wrench can quickly and easily adjust C-Bolt Clamps (1/2" & 3/4"), Pan Bolt, Source 4 Barrel Knobs, and more!

Specifications: Size: 2-3/4" Long 1" Wide 3/4" Thick ■ Weight: .04 kgs/1.4 oz ■ Color: Silver/Aluminum Finish (Available in various colors through special order.) ■ Material: Aluminum

FlexiTool
TO-FLEXITool

Great tool for quick and easy removal of flexipar lenses.

Specifications: 4" x 1.5" x 0.25" ■ 0.023 kgs/0.05 lbs ■ Color: Black

CABLES

- **Data Cable** is XLR 3-Pin, XLR 5-Pin DMX conductors.
- **Power Cable Extensions** Power Multi-Cables, 12/3 SO Power Cables
- **Extensions** Grounded cube, grounded power strip, adapters, extension cord, Power Splitters
- **Socapex** These strong, reliable cables are used in film, television, and stage lighting. Socapex come in cable variations from 12/14 cables and 19-Pin Breakout and Breakin assemblies, to 14/7 Motor Control and Power Cable.
- **Custom Cables**

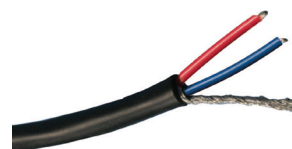

RAW DATA CABLE

24GA 2/C AUDIO MICROPHONE BLACK CABLE

CA-MIC1

Cable with 2 conductors 24 gauge and shield. Annealed stranded copper wires. Applications include broadcast, audio, and sound.

Specifications: Conductor size: 2 conductors 24awg, 16 x 36 annealed Copper Wire ■ Insulation type: 0.05" PE ■ 95% Shield coverage spiral ■ Capacitance between conductors: 21 pF/ft ■ Capacitance Conductor to Shield: 37 pF/ft ■ Characteristic Impedance: 70ohms @ 1Mhz ■ Resistance at 20C: 23 ohms/1000 ft ■ Maximum Nominal Outer Diameter: 0.23 inches ■ Approvals: UL ■ Color/ Outer jacket: Matte Black Rubber ■ Weight: 0.0331 lbs per Foot, or 33.1 lbs at 1000 feet

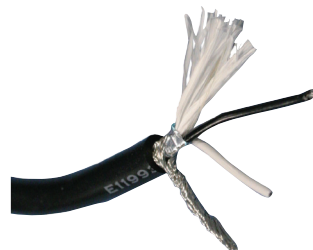

DMX 2 CONDUCTORS x 22AWG + SHIELD CABLE

CA-DMX2C

Professional DMX cable. Suitable for making 3 pin DMX cable runs. 2 Conductors, 22 Gauge twisted pair with double shielding and aluminum foil wrap. All tinned stranded copper conductors.

Specifications: Outer Jacket: Flexible Black PVC ■ Maximum Nominal Outer Diameter: 0.225 inches ■ Approvals: UL2696 ■ Size: 2.75" x 6" x 1.50" + 6' cord length ■ Weight: 0.0331 lbs per foot, or 33.1 lbs at 1000 feet

DMX 4 CONDUCTORS x 22AWG + SHIELD CABLE

CA-DMX4C

Professional DMX cable. Suitable for making 5 pin DMX cable runs. 4 Conductors, 22 Gauge with braided shielding and aluminum foil wrap. All stranded copper conductors.

Specifications: Outer Jacket: Flexible Black Rubber ■ Maximum Nominal Outer Diameter: 0.256 inches ■ Weight: 0.0375 lbs per foot, or 37.5 lbs at 1000 feet

USB DATA CABLE

USB 6' CABLE TYPE A MALE TO TYPE B MALE

CA-USB-AB6

Specifications: Size: 6 feet ■ Weight: 0.147 kgs/0.325 lbs ■ Color: Black

3-PIN XLR DATA CABLE

Male to female XLR cables for DMX data use. The 3-Pin XLR cables may also be used as LO-Z microphone cables.

Specifications: Flexible black PVC jacket ■ Individually packaged ■ Black XLR Connectors with gold contacts ■ Suitable for permanent install and production use.

Product Code	Specifications
CA-XLR3/1	Cable XLR 3-Pin Male to Female 1' ■ Approvals: UL2969 ■ Weight: 0.0708 kgs/0.1563 lbs
CA-XLR3/5	Cable XLR 3-Pin Male to Female 5' ■ Approvals: UL2969 ■ Weight: 0.13 kgs/0.28 lbs
CA-XLR3/10	Cable XLR 3-Pin Male to Female 10' ■ Approvals: UL2969 ■ Weight: 0.1956 kgs/0.4313 lbs
CA-XLR3/15	Cable XLR 3-Pin Male to Female 15' ■ Approvals: UL2969 ■ Weight: 0.295 kgs/0.65 lbs
CA-XLR3/25	Cable XLR 3-Pin Male to Female 25' ■ Approvals: UL2969 ■ Weight: 0.34 kgs/0.72 lbs
CA-XLR3/50	Cable XLR 3-Pin Male to Female 50' ■ Approvals: UL2969 ■ Weight: 0.77 kgs/1.7 lbs
CA-XLR3/100	Cable XLR 3-Pin Male to Female 100' ■ Approvals: UL2969 ■ Weight: 1.4 kgs/3.2 lbs

5-PIN XLR DATA CABLE

5-Pin Male to female XLR cables for DMX data use. Suitable for permanent install and production use.

Specifications: Flexible black PVC jacket ■ Individually packaged ■ Black XLR Connectors with gold contacts

Product Code	Specifications
CA-XLR5/1	Cable XLR 5-Pin Male to Female 1' ■ Approvals: UL2969 ■ Weight: 0.077 kgs/0.17 lbs
CA-XLR5/5	Cable XLR 5-Pin Male to Female 5' ■ Approvals: UL2969 ■ Weight: 0.15 kgs/0.33 lbs
CA-XLR5/10	Cable XLR 5-Pin Male to Female 10' ■ Approvals: UL2969 ■ Weight: 0.24 kgs/0.525 lbs
CA-XLR5/15	Cable XLR 5-Pin Male to Female 15' ■ Approvals: UL2969 ■ Weight: 0.372 kgs/0.82 lbs
CA-XLR5/25	Cable XLR 5-Pin Male to Female 25' ■ Approvals: UL2969 ■ Weight: 0.599 kgs/1.32 lbs
CA-XLR5/50	Cable XLR 5-Pin Male to Female 50' ■ Approvals: UL2969 ■ Weight: 0.96 kgs/2.125 lbs
CA-XLR5/100	Cable XLR 5-Pin Male to Female 100' ■ Approvals: UL2969 ■ Weight: 1.81 kgs/3.99 lbs

CA-XLR5/5

CA-XLR5/1

Specifications: Flexible white PVC jacket ■ Individually packaged ■ White XLR Connectors with boots, nickel body with silver contacts

Product Code	Specifications
CA-XLR5/5W	Cable XLR 5-Pin Male to Female 5' ■ Approvals: UL2969 ■ Weight: 0.15 kgs/0.33 lbs
CA-XLR5/10W	Cable XLR 5-Pin Male to Female 10' ■ Approvals: UL2969 ■ Weight: 0.30 kgs/0.65 lbs
CA-XLR5/25W	Cable XLR 5-Pin Male to Female 25' ■ Approvals: UL2969 ■ Weight: 0.75 kgs/1.63 lbs

CA-XLR5/10W

RAW POWER CABLE

HEAVY DUTY RAW 12/14 ENTERTAINMENT POWER CABLE

PC-12/14

Raw cable for making 19-Pin power cables. Provides 14 conductors of 12 gauge wire. Flexible copper wire with 65 strands per conductor. Wire are multi colored and numbered from 1 to 14. No ends, sold by the foot.

Specifications: Power Multi-Cable ■ EPDM CPE Jacket ■ Size: 1 feet increments ■ 6 Circuit 12 gauge/14 wire ■ UL Listed ■ Weight: 0.7 lbs per foot ■ Color: Black

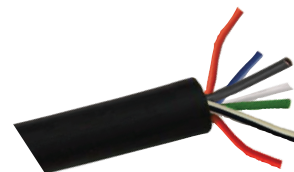

HEAVY DUTY RAW 14/7 SO ENTERTAINMENT POWER CABLE

PC-14/7SO

Raw cable for making 7-Pin motor power and control cables. Provides 7 conductors of 14 gauge wire. Flexible copper wire with 41 strands per conductor. Wire are multi colored and numbered from 1 to 7. No ends, sold by the foot.

Specifications: Power SOOW type Multi-Cable ■ 90C 600V ■ Size: 1 feet increments ■ 14 gauge/7 wire ■ UL/CSA Listed ■ Weight: 0.4 lbs per foot ■ Color: Black

1 CONDUCTOR RAW ENTERTAINMENT STAGE CABLE

PC-2/0EISL

PC-4/0EISL

EISL / SC Portable power and lighting applications in the entertainment industry including activities such as theatre, television, night clubs, motion pictures, mobile communication vans, spotlights, sound systems and other applications that would require temporary power. Type SC cables are rated for 600 volts and provide excellent flexibility and are flame retardant. SC Cables are designed to withstand exposure to oil, acids, alkalines, heat, flame, moisture, chemicals and may be submerged in water. Raw cable for making power feeder cable sets. Provides 1 conductor of 2/0 or 4/0 AWG gauge wire. No ends, sold by the foot.

PC-2/0EISL Specifications: 2/0 Power EISL SC single conductor Entertainment Stage Lighting Grade ■ CPE Jacket ■ 105°C (-40°C) ■ Nominal Outer Diameter: 0.659 inch ■ 300 amps ■ 600v ■ Stranding: 1308/30 ■ Suitable for continuous submersion in water ■ Flame Test: meets FT-1, FT-5 ■ Approvals: UL Listed Type SC per UL 1680 ■ CSA Certified as Type PPC ■ Size: 1 foot increments ■ Weight: .532 lbs/ft ■ Color: Black

PC-4/0EISL Specifications: 4/0 Power EISL SC single conductor Entertainment Stage Lighting Grade ■ CPE Jacket ■ 105°C (-40°C) ■ Nominal Outer Diameter: 0.775 inch ■ 405 amps ■ 600v ■ Stranding: 2071/30 ■ Suitable for continuous submersion in water ■ Flame Test: meets FT-1, FT-5 ■ Approvals: UL Listed Type SC per UL 1680 ■ CSA Certified as Type PPC ■ Size: 1 foot increments ■ Weight: .802 lbs/ft ■ Color: Black

RAW 12/3 SO POWER CABLE

PC-12/3SO-250

Raw Heavy Duty 12/3 SO power cable for making extensions and cords. There are 2 sections per total 250 foot box. No connectors. UL approved. Black

Specifications: Flexible 12/3 SO cable ■ 3 conductors of 12 gauge ■ Size: 250 feet total in 2 parts ■ Weight: 27.3 kgs/60 lbs ■ Color: Black ■ UL Approved

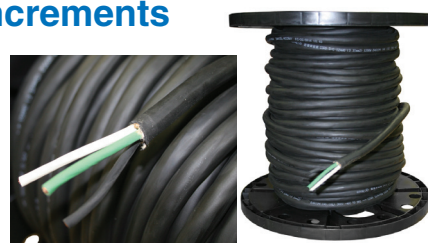

RAW POWER FLEXCORD CABLE

1000 foot spools / 1 feet increments

12/3 SJOOW and 14/3 SJOOW are 12 and 14 gauge Junior jacket power cables for making breakins and breakouts, twofers, extensions and cords. No connectors. UL approved. Black

12/3 SOOW and 14/3 SOOW are 12 and 14 gauge power cables for making breakins and breakouts, twofers, extensions and cords. No connectors. UL approved. Black

Product Code	Specifications
PC-12/3SJO	12/3 SJOOW cable 300v ■ 3 conductors of 12 gauge ■ Size: 1000 foot spools ■ Weight: 0.14 lbs per foot
PC-14/3SJO	14/3 SJOOW cable 300v ■ 3 conductors of 14 gauge ■ Size: 1000 foot spools ■ Weight: 0.105 lbs per foot
PC-12/3SO	12/3 SOOW cable 600v ■ 3 conductors of 12 gauge ■ Size: 1000 foot spools ■ Weight: 0.24 lbs per foot
PC-14/3SO	14/3 SOOW cable 600v ■ 3 conductors of 14 gauge ■ Size: 1000 foot spools ■ Weight: 0.17 lbs per foot

12/1THHN 12AWG, 1 CONDUCTOR, STRANDED WIRE - RAW (PER FOOT)

PC-12-1THHN-BK Black
 PC-12-1THHN-WH White
 PC-12-1THHN-GR Green

THHN is a multi-purpose building wire used in dimmer racks, conduit and cable trays for service, feeders and branch circuits in commercial and industrial applications. THHN is rated for 600-Volt and has a heat capacity of up to 90°C. Wire only, no connectors. Made with annealed (soft) copper, compressed stranded wire

Specifications: Flexible 12 gauge 1 conductor stranded wire 600v ■ 1 conductor of 12 gauge ■ Size: 1 foot increments ■ Weight: 0.03 lbs per foot ■ Color: Black, White, Green ■ UL Approved ■ Insulation is high heat and moisture resistant polyvinyl chloride (PVC) ■ Jacket is abrasion, moisture, gasoline and oil resistant nylon

SPLITTER BLUNTS

Power split adaptors are good to split power up in 2 or 3 ways in a neat fashion. The molded part is made of neoprene compound with the cable jacket chemically bonded giving a waterproof seal. Supplied as a blunt with no connectors so they can be configured as needed. Ends are prepared for wiring devices.

PC-PSW12/3SJ-36 Specifications: Output: 3-Way "W" splitter ■ Cable: 12/3 SJT Black ■ Blunt - without connectors ■ Power Input: 120v or 250v ■ Weight: 0.36 kgs / 0.80 lbs ■ Color: All black

PC-PSY12/3SJ-36 Specifications: Output: 2-Way "Y" splitter ■ Cable: 12/3 SJT Black ■ Blunt - without connectors ■ Power Input: 120v or 250v ■ Weight: 0.23 kgs / 0.51 lbs ■ Color: All black

POWER EXTENSION CORDS

MULTI-OUTLET EXTENSION CORD

PC-EXT14/3EMO30-6

Multi-Outlet Extension Cord features 6 inline molded outlets for quick and easy power distribution. Great for power on trusses to LED lights, or neatly lay on front of stage, orchestra pits or back stage where multiple plug locations is convenient. Outlet spacing is 5 feet from one to the other. Each outlet features two eyelets for mounting or tie wrapping purposes. At the end of the cord, there is a standard edison female to plug another cord into it and continue on. Cord is 32.5 feet of 14/3 SJTW cable. Outdoor water resistant and flame retardant.

Specifications: 14/3 SJTW Grounded Extension cord with 6 inline outlets and one female end outlet for easy extension ■ Distance from plug to 1st inline outlet: 5 feet ■ Distance between Inline outlets: 5 feet ■ Distance Last Inline Outlet to Connector Outlet: 2.5 feet ■ 14/3 SJTW cable rated at 300v ■ Ultra flexible, flame retardant and water resistant SJTW ■ Male and Female edison Nema 5-15 connections ■ All components UL/cUL Recognized ■ Length: 32.5 feet ■ Weight: 2.05 kgs/4.5 lbs ■ Color: Black

HEAVY DUTY GROUNDED EXTENSION CORD

Heavy duty power extension cord. Ultra flexible 12/3 SJTW cable with male to female Nema 5-15 edisons on each end. Outdoor water resistant and flame retardant. Great for professional use where a 12 gauge extension cord is needed for low power loss, high current or long runs. Used by A/V and production companies.

Specifications: Heavy Duty 12/3 Grounded Extension cord ■ Rated at: 15A, 125 volt, 1875 W ■ Ultra flexible, flame retardant and water resistant SJTW ■ Male/Female edison Nema 5-15 ■ Approvals: cULus & OSHA ■ Color: Black

Product Code	Specifications
PC-EXT12/3E005B	Length: 5 feet ■ Weight: .40 kgs/.90 lbs
PC-EXT12/3E010B	Length: 10 feet ■ Weight: .77 kgs/1.7 lbs
PC-EXT12/3E015B	Length: 15 feet ■ Weight: 1.04 kgs/2.3 lbs
PC-EXT12/3E025B	Length: 25 feet ■ Weight: 1.4 kgs/3 lbs
PC-EXT12/3E050B	Length: 50 feet ■ Weight: 2.73 kgs/6 lbs
PC-EXT12/3E100B	Length: 100 feet ■ Weight: 5.5 kgs/12 lbs
PC-EXT12/3E010BT	Length: 10 feet ■ Weight: .73 kgs/1.6 lbs
PC-EXT12/3E025BT	Length: 25 feet ■ Weight: 1.45 kgs/3.1 lbs
PC-EXT12/3E050BT	Length: 50 feet ■ Weight: 2.95 kgs/6.5 lbs
PC-EXT12/3E0100BT	Length: 100 feet ■ Weight: 5.68 kgs/12.5 lbs

PC-EXT12/3E025BT
 Heavy Duty 12/3 Grounded Extension cord with tritap 3 way also known as a triple tap

HEAVY DUTY POWERCON JUMPER CORD

Heavy duty PowerCon jumper cord. Ultra flexible SJO cable with input to output PowerCon ends. Great for professional use where a 12 gauge jumper cord is needed from one fixture to the next with low power loss, high current or long runs. Used by A/V, lighting, audio and production companies.

Specifications: Heavy Duty Grounded jumper cord ■ Rated at: 20A, 125 volt ■ Ultra flexible 90°C UL/CSA type SJ/SJOOW, 300v wire is sunlight, water, oil and weather resistant ■ Oil resistant Thermoset black CPE jacket is flexible yet durable ■ Cable diameter 0.43" ■ Power in / power out PowerCon connectors ■ All components are cULus ■ Color: Black, NAC3FCA Blue to NAC3FCB Gray - Black

PC-POWCON12SJ-10

Product Code	Specifications
PC-POWON12SJ-3	Length: 3 feet ■ Weight: .227 kgs/0.5 lbs

19 PIN POWER CABLES

POWER MULTI-CABLE

- PC-12/14S-025 Length: 25 feet
- PC-12/14S-050 Length: 50 feet
- PC-12/14S-075 Length: 75 feet
- PC-12/14S-100 Length: 100 feet

Standard 19-Pin male to female in multi-conductor cable 12/14 exist in 25, 50, 75, and 100 foot lengths. Provides six circuits of power. Our cables are labeled with the length for easy identification and include 4 inches of heat shrink for company name placement. Heavy duty power cables are available in standard and custom configurations.

Specifications: Power Multi-Cable ■ Male/Female 19-Pin Socapex / CEEP ■ 6 Circuit 12 gauge/14 wire ■ Color: Black

PC-12/14S-050

19 PIN BREAKINS/BREAKOUTS

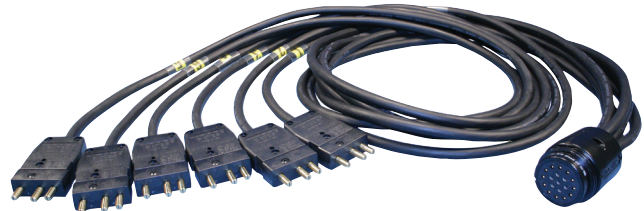

BREAK-IN/BREAK-OUT SOCAPEX

Standard Socapex 19-Pin male or female on 12/3 SJOW cable. Provides six circuits of power. Our cables are labeled with the circuit number for easy identification and include 6 inches of heat shrink for company name placement. Heavy duty power cables are available in standard and custom configurations.

Specifications Size: 6 feet ■ 12/3 SJOW ■ Color: Black

PC-BO-S-06-EDISON

PC-BI-S-06-S3PIN

Product Code	Specifications
PC-BI-S-06-EDISON	Break-In Socapex ■ 19-Pin Female to Edison Males
PC-BI-S-06-L620	Break-In Socapex ■ 19-Pin Female to L620 Males
PC-BI-S-06-S3PIN	Break-In Socapex ■ 19-Pin Female to Stage 3-Pin Males
PC-BO-S-06-EDISON	Break-Out Socapex ■ 19-Pin Male to Edison Females
PC-BO-S-06-L520	Break-Out Socapex ■ 19-Pin Male to L520 Females
PC-BO-S-06-L620	Break-Out Socapex ■ 19-Pin Male to L620 Females
PC-BO-S-06-S3PIN	Break-Out Socapex ■ 19-Pin Male to Stage 3-Pin Females

MOTOR CABLES

MOTOR CONTROL & POWER CABLE

Standard Socapex 7-Pin male to female in 14/7 multi-conductor cable available in 25, 50, 75, and 100 foot lengths. Our cables are labeled with the length for easy identification and include 6 inches of heat shrink for company name placement. Heavy duty power cables are available in standard and custom configurations.

Specifications: Motor Control & Power Cable ■ Male/Female 7-Pin Socapex ■ Seven 14 gauge conductors ■ Size: 23" x 23" x 2" coiled ■ Color: Black

PC-14/7S7PIN-050

Product Code	Specifications
PC-14/7S7PIN-025	Length: 25 feet ■ Weight: 4.55 kgs/10 lbs
PC-14/7S7PIN-050	Length: 50 feet ■ Weight: 8.64 kgs/19 lbs
PC-14/7S7PIN-075	Length: 75 feet ■ Weight: 12.73 kgs/28 lbs
PC-14/7S7PIN-100	Length: 100 feet ■ Weight: 16.4 kgs/36 lbs

MOTOR CONTROL & POWER CABLE

PC-14/7L1416-025 Length: 25 feet
 PC-14/7L1416-050 Length: 50 feet
 PC-14/7L1416-075 Length: 75 feet
 PC-14/7L1416-100 Length: 100 feet

Heavy duty motor power and control cable is available in standard and custom configurations.

Standard L14-20/L16-20 male to female in 14/7 multi-conductor cable in 25, 50, 75, and 100 foot lengths. Our cables are labeled with the length for easy identification and include clear heat shrink for company name placement.

Specifications: Motor Control & Power Cable ■ Male/Female L14-20, L16-20 Twistlock Connectors ■ Seven 14 gauge conductors ■ Length: 25,50,75,100 feet ■ Size: 23" x 23" x 5" coiled ■ Weight: 13.64kgs/30 lbs ■ Color: Black

MULTI OUTLET STRIPS

SQUARE MOLDED 4-WAY POWER CABLE
PC-515-4WAYS/B

No breaker resets, no switches, simple and robust molded 4-Way U-Ground Quad Tap Breakout Extension Cord Adaptor

Specifications: Heavy Duty SJTW 12/3AWG 6 foot Cord with male edison 515P plug to 4 female edison 515R T-slot receptacles ■ Red LED Power indicator ■ Color: Black ■ Approval: UL ■ Size: 2.75" x 6" x 1.50" + 6' cord length ■ Weight: 0.75 kgs/1.65 lbs

4 WAY POWER CABLE
PC-515-4WAYO/B

No breaker resets, no switches, simple and robust 4-Way U-Ground Quad Tap Breakout Extension Cord Adaptor

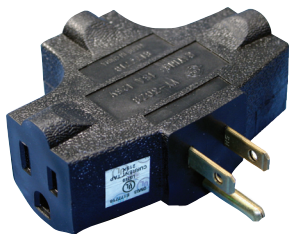

Specifications: Heavy Duty SJTW 12/3AWG 6 foot Cord with male edison 515P plug to 4 female edison 515R receptacles UL listed ■ Size: 4" x 4" x 1.50" + 6' cord length ■ Weight: 0.57 kgs/1.25 lbs ■ Color: Black

6 WAY POWER CABLE
PC-515-6WAY/B

6-Way U-Ground Power Strip with male Edison 515P 6 foot cord.

Specifications: cULus ■ Size: 10" x 2" x 1" ■ Weight: 0.43 kgs/.94 lbs ■ Color: Black with red switch

3-WAY U-GROUND TRIPLE TAP ADAPTOR T-STYLE 90 DEGREE
PC-515-3WAY/B

Specifications: 3-Way U-Ground Triple Tap Adaptor - T-style 90 degree with male 515P to 3 female 515R - All Black ■ Rating: UL and CSA ■ Size: 3.25" x 3.0" x 1.25" ■ Weight: 0.15 kgs/.32 lbs

692-E GROUNDED TRIPLE CUBE TAP 15A-125V
PC-515-3CUBETAP

Specifications: Approval: UL ■ Size: 1.5" x 1" x 2.5" ■ Weight: 0.051 kgs/.12 lbs ■ Color: Black

OUTDOOR RUBBER ENCLOSURE, QUAD BOX
PC-515QO1231

Outdoor rubber enclosure, Quad Box with 2x Nema 5-20 duplex outlets with individual cover flip lids, cable gland to 1' tail with a mechanically installed Nema 5-15 edison weathertight 15A male plug.

Call for custom lengths, plugs, non-weather tight, or any custom versions.

Specifications: Male 5-15 plug to four female 5-20 receptacles ■ 1' long 12/3SO Cable ■ Size: 17" x 2.5" x 5.75" ■ Weight: 0.84 kgs/1.86 lbs ■ Color: Black

CONNECTORS

There are many types of connectors that are important expendables used in the lighting industry from power, data to signal connectors. When purchasing connectors there are many things to consider such as environment exposure and durability. It's very important during the early planning phase of a project, to specify which connector goes to what application. Planning ahead and not at the last minute saves time and money.

- **Audio Phone Plugs** - stereo and mono, male
- **Audio SpeakON** - The speakON cable connectors are the industry-standard connectors for amplifier / loudspeaker connections.
- **Data RJ45** - Modular cable standardized networking interface.
- **Data XLR** - Many different types of XLR connectors and methods of termination.
- **Data XLR Adapters** - Adapters for converting 3-pin to 5-pin and also male to female changes.
- **Power Cam** - Single and three phase feeder cable connects gear to building power supply in venue set ups. Temporary electrical power production, distribution or generators.
- **Power Cam Adapters** - Industry standard adapters, turnarounds, and splitters.
- **Power Multi Pin** - Industrial applications requiring multiple power, low amperage applications. Multi-pin connectors engineered to provide reliable, rugged service for power, control and instrumentation in ordinary locations. Multi-pin connectors are used to provide power, control, or instrumentation connection to fixed or portable equipment in non-hazardous environments.
- **Power Stage Pin** - Industry standard 3 prong plug commonly seen in theatrical venues. Perfect for use with dimmers.
- **Power Straight Blade** - Power receptacles commonly made of durable heavy-duty nylon. Also known as Edison Plugs.
- **Power Twistlock** - A production industry standard for moving lights, video walls and LED fixtures. Offers a connector that locks together with its mate.
- **PowerCon** - Compact and durable construction and reliable power connector without breaking capacity.

AUDIO PHONE PLUGS

NEUTRIK PX SERIES

The heavy duty professional phone plug series improves on the design of the existing C series by offering the thinnest available A-gauge 1/4" plug with unique Neutrik® chuck type strain relief on the market. The slimline shell with a width of 14.5 mm meets the most recent requirements for highest density jackfields (15.88 mm jack pitch). The precise machined one-piece tip contact without rivets makes it unique and avoids hook up in a socket or break off the tip. The Plug X Series serves all applications such as guitar applications, audio cables, snakes, speakers, amplifiers and mixing desks.

Features & Benefits: Extra slim 1/4" plug for highest packing density ■ Robust die-cast shell in stylish design ■ Improved chuck type strain relief for reliable cable retention ■ Sleek design for best handling convenience ■ Precision machined one-piece contacts - avoid hook up of tip contact

CO-1/4P2MNS

NEUTRIK NP2X 1/4" TS PX SERIES MONO PHONE PLUG MALE

CO-1/4P2MNS

1/4" professional phone plug, 2 pole, nickel contacts, nickel shell ■ Weight: 0.0236 kgs / 0.052 lbs

CO-1/4P3MNS

NEUTRIK NP3X 1/4" TRS PX SERIES STEREO PHONE PLUG MALE

CO-1/4P3MNS

3 pole 1/4" professional phone plug, nickel contacts, nickel shell ■ Weight: 0.027 kgs / 0.061 lbs

NEUTRIK NYS SERIES 3.5 MM PLUG

CO-1/8P3MNB

Neutrik® Rean 3 pole 1/8" professional phone plug, nickel contacts, black shell

Specifications: 1/8" (3.5 mm) male mini plug ■ Uninsulated ■ 3 contacts ■ Contact resistance < 10 mΩ ■ Dielectric strength 0.5 kVdc ■ Rated current per contact depends on mating connector ■ Cable O.D. ≤ 4 mm ■ Metal shell ■ Brass contacts ■ Strain relief crimp type ■ Weight: 0.014 kgs / 0.031 lbs

AUDIO SPEAKON

NEUTRIK SPEAKON® CABLE CONNECTORS FC SERIES

The industry-standard for loudspeaker connections offer extremely reliable and robust cable connectors with a reliable locking system. They feature solid contacts with screw-type terminals including a stranded wire protection, also solder termination.

Features & Benefits: Up to 30 A rms current rating ■ Reliable and robust, easy and fast to assemble ■ Cable strain relief for 5 - 15 mm cable O.D. ■ Accurate and dependable twist lock latching system "Quick Lock" ■ Glass reinforced material for insert and housing, long-lasting and dependable ■ User friendly latch design for easy handling ■ Unique Neutrik® chuck type strain relief ■ Branded with unique hologram - guarantees genuine and authentic Neutrik® product

CO-SPKON2F	NL2FC Cable End speakON® 2 pole ■ Weight: 0.02834 kgs / 0.0625 lbs
CO-SPKON4F	NL4FC Cable End speakON® 4 pole ■ Weight: 0.039 kgs / 0.086 lbs
CO-SPKON8F	NL8FC Cable End speakON® 8 pole ■ Weight: 0.067 kgs / 0.147 lbs

CO-SPKON2F

CO-SPKON4F

CO-SPKON8F

NEUTRIK SPEAKON® CABLE CONNECTORS SPX SERIES

The speakON cable connectors are the industry-standard connectors for amplifier / loudspeaker connections. The entire family of 2 and 4 pole cable connectors has been designed to operate in the high current, inductive load environment of loudspeakers. The cable connectors feature a robust plastic housing, the traditional Neutrik chuck type cable clamp, a unique locking principle and touch proof contacts.

Features & Benefits: Current rating 40 A rms continuous, 50 A audio signal with 50% duty cycle ■ Robust and durable all metal housing ■ Reinforced metal quick lock system for easy and precise locking ■ Accurate and dependable twist lock latching system "Quick Lock" ■ Glass reinforced material for insert and housing, long-lasting and dependable ■ UExtra large solder contacts for up to 6 mm² (AWG10) wires ■ UMate with all available speakON products ■ Integrated design guarantees "Made by Neutrik®"

Product Code	Specifications
CO-SPKON4FX	NL4FX Cable End speakON® SPX 4 pole ■ Weight: 0.105 kgs / 0.23 lbs
CO-SPKON4FXR	NL4FRX Cable End speakON® SPX 4 pole - right angle ■ Weight: 0.105 kgs / 0.23 lbs

CO-SPKON4FX

CO-SPKON4FXR

NEUTRIK SPEAKON® CABLE CONNECTORS STX SERIES

The 4 and 8 pole speakON STX Series is especially designed for heavy duty amplifier-loudspeaker applications like professional touring. The extremely rugged and durable STX Series features an all metal housing and the 4 pole version features a built-in gasket providing weatherproof protection to IP54 in mated condition. The 4 pole version is available as 4 gender system including male cable and female chassis connector.

Features & Benefits: Current rating 40 A rms continuous ■ Up to 50 A audio signal, duty cycle 50% ■ Only 3 parts, easy to assemble ■ High impact materials - long-lasting and reliable ■ Easy and extremely precise locking system "Quick Lock" ■ Improved grip on latch ■ 1 piece strain relief, chuck for 7 to 14.5 mm cable O.D. ■ Color coding possible ■ Improved screw-type termination for highest pull-out force ■ Integrated design guarantees "Made by Neutrik®"

CO-SPKON8MM

SPEAKON® COUPLER CO-SPKON8MM

8 pole lockable coupler providing extension for two SpeakON NL8FC cables. This SpeakON D shape adapter uses Neutrik's quick lock locking system. The contacts are touch proof and designed to prevent damage from arcing if disconnected when in use.

Features & Benefits: Industry-standard "Quick-Lock" connection ■ 8-conductor cable coupler (female-female) ■ Rugged construction for years of service ■ Black finish ■ Weight: 0.105 kgs / 0.23 lbs

CO-SPKON4MMX

LOCKABLE 4 POLE SPEAKON® ADAPTER CO-SPKON4MMX

4 pole lockable coupler, links two NL2/NL4F together for cable extension. Can be permanently attached to NL2, NL4FX, NL4FC . ■ Weight: 0.021 kgs / 0.046 lbs

DATA RJ45

ETHERCON CHASSIS CONNECTORS / A SERIES / D SERIES

The etherCON Series is a ruggedized and lockable RJ45 connector system, optimized for pro audio, video and lightning network applications. The chassis connectors are shaped to fit into standardized panels outside of the entertainment industry. Various wiring applications and color coding are available. The all plastic A-Series offers the most space saving and cost effective design. The D-Series offers the most rugged design of the etherCON series and is perfectly suitable for panel mount and the installer market.

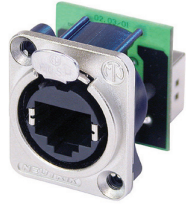

NEUTRIK

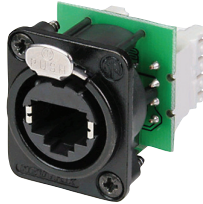

Features & Benefits: Accommodates rugged NE8MC* or any standard RJ45 plug ■ Approved latch lock system ■ Complies with Cat 5e according to TIA / EIA 568B and ISO / IEC 11801 standard ■ Mounting screws included.

ETHERCON CABLE CONNECTOR CARRIER

RJ45 cable connector carrier for preassembled RJ45 plugs consists of black chromium shell, fixing disk, chuck, bush and boot. Packed with two cable protection elements for cable diameter either up to 5 mm or 8 mm. Cable connector carrier does not include a RJ45 plug. The etherCON cable connector carrier upgrades a conventional RJ45 connector to an extremely robust lockable solution.

Features & Benefits: The RJ45 system for harsh and demanding environment ■ Cable connector carrier accepts the most common RJ45 plugs ■ Rugged diecast shell and unique chuck type strain relief ■ Protects Ethernet connections in a variety of commercial type applications and is designed to prevent breakage of the fragile components of standard RJ45 connectors ■ Allows assembly of preassembled conventional RJ45 cables ■ Accessories include color coded boots in 9 standard colors ■ Weight: 0.03 kgs / 0.066 lbs

XLRJ45

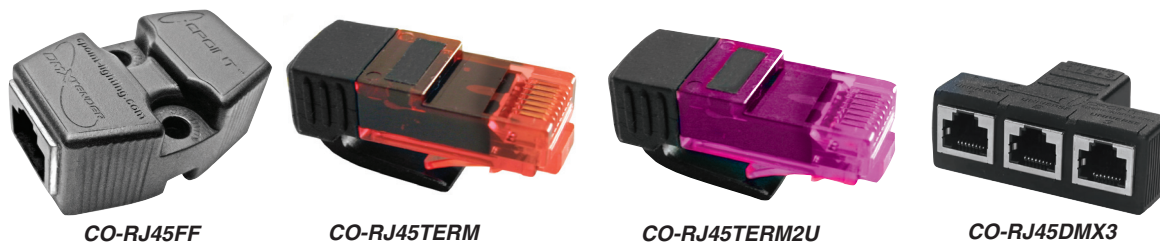

XLRJ45 is an adapter to convert a DMX512 XLR connector to a RJ45 connector. The XLRJ45 adapter makes it possible to use any "common" CAT-5 or CAT-6 ethernet cable as a DMX512 cable. XLRJ45 is available in four versions, 3-pin male or female XLR or 5-pin male or female XLR. The different adapters can be mixed to make for example a 5-pin to 3-pin cable. XLRJ45 is very useful for making a DMX512 cable quickly and at a very low cost. Existing CAT5 cable runs that have been previously installed can also be converted to DMX lines. Many new installations are now using CAT5 cable since it is economical, easy to specify, locate and understood by standard electrical practices as data connections. Additionally terminating of RJ45 connections is very fast and commonly understood.

Product Code	Specifications
CO-RJ45XLR3F	RJ45 CAT5 to DMX XLR 3-Pin Female Adaptor ■ Gold plated pins on connectors ■ Weight including packaging: 75 g / 0.17 lbs ■ Color: Molded Black
CO-RJ45XLR3M	RJ45 CAT5 to DMX XLR 3-Pin Male Adaptor ■ Gold plated pins on connectors ■ Weight including packaging: 75 g / 0.17 lbs ■ Color: Molded Black
CO-RJ45XLR5F	RJ45 CAT5 to DMX XLR 5-Pin Female Adaptor ■ Gold plated pins on connectors ■ Weight including packaging: 75 g / 0.17 lbs ■ Color: Molded Black
CO-RJ45XLR5M	RJ45 CAT5 to DMX XLR 5-Pin Male Adaptor ■ Gold plated pins on connectors ■ Weight including packaging: 75 g / 0.17 lbs ■ Color: Molded Black

CAT-5 ACCESSORIES

Allows for combining of CAT-5 cables.

Product Code	Specifications
CO-RJ45FF	DMXtender RJ45 CAT5 Female to Female Extender ■ Size: 2.4" x 1.6" x 0.9" ■ Weight including packaging: 67 g/0.15 lbs ■ Color: Molded Black
CO-RJ45TERM	DMXterminator 120 RJ45 120 Ohm DMX512 Terminator ■ Size: 1.3" x 1.8" x 0.8" ■ Weight including packaging: 4.4 g/0.1 lbs ■ Color: Molded Red
CO-RJ45TERM2U	DMXterminator 120 Two Universe RJ45 120 Ohm DMX512 Terminator ■ Size: 1.3" x 1.8" x 0.8" ■ Weight including packaging: 4.4 g/0.1 lbs ■ Color: Molded Purple
CO-RJ45DMX3	DMXcompander RJ45 CAT5 3 to 1, 1 to 3 Adapter ■ Size: 1.3" x 1.8" x 0.8" ■ Weight including packaging: 5 g/0.011 lbs ■ Color: Molded Black ■ Run three DMX512 Universes in one CAT-5 cable.

DATA XLR

XLR CONNECTORS

XLR connectors are available in a variety of configurations and pin numbers. All connectors have nickel plating for reliable connections. The adapters now come in black body finish. 3-Pin XLRs are commonly used in the audio industry and in the lighting industry for DMX data connection. 5-Pin XLRs are also very popular for lighting industry data connections. 5-Pin plugs are the "true" USITT DMX512 lighting standard, although many manufacturers have elected to use 3-Pin for flexibility and availability.

When converting from 3 to 5 pin, it is important that Pin 1 remains the shield/ground. Pins 2 and 3 both remain the same in both connectors. In the 5-Pin connector, pins 4 & 5 remain unused when converting. Our handy adapters provide proper conversions.

XX SERIES

The next generation of the worldwide accepted standard of XLR cable connectors. The successor of the X series offers several new features which make it more reliable, easier to assemble and improves contact integrity as well cable strain relief.

POWERCON

POWERCON TRUE 1 CABLE CONNECTORS & CHASSIS CONNECTORS

NEUTRIK

The powerCON TRUE1 is a locking 20 A true mains connector. It replaces appliance couplers wherever a very rugged solution in combination with a locking device is needed in order to guarantee a safe power connection. The powerCON TRUE1 is a connector with breaking capacity (CBC), i.e. it can be connected or disconnected under load or live.

Features & Benefits: True mains connector with breaking capacity (CBC) ■ Lockable 20 A single phase connector ■ Dust and water resistant according to IP65 in mated condition ■ Fast and easy twist lock latching system ■ Extremely robust and reliable ■ Unique Neutrik cable retention ■ ENEC certified according to IEC 60320 ■ UL recognized components / 0.025 lbs

Product Code	Specifications

INSUL-LOCK™ PLUS CONNECTORS

Electrical Systems

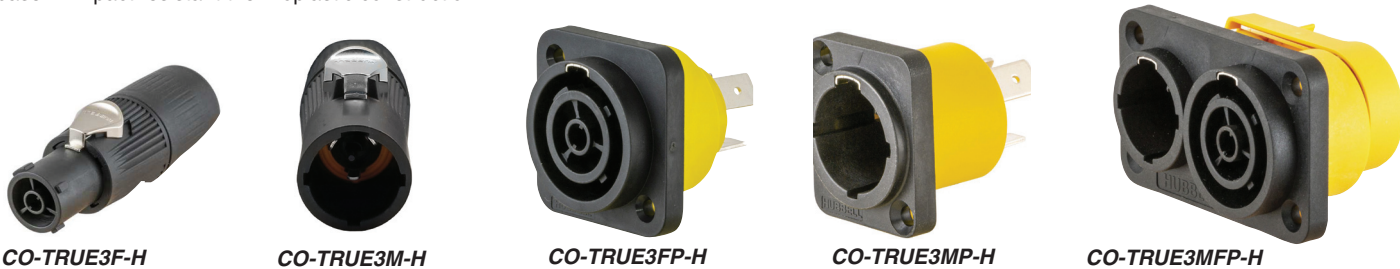

Insul-Lock™ Plus products are miniature devices that provide cost-effective power connections to support LED lighting, multiple-screen video walls, stage lighting, and other applications. With a black body design, Insul-Lock Plus devices blend into the applications in which they are used. Featuring a durably constructed body, the device is made of impact-resistant thermoplastic that's ideal for portable power distribution in entertainment venues, stadiums, arenas, exhibit halls, broadcast studios, and auditoriums.

The devices are 20A 250VAC rated, can be used outdoors, and are rated for safe disconnection under load. The devices also comply with NEC 520.68 for extra-hard usage portable cable in power stage equipment, accepting up to 12/3 AWG SO cables.

Insul-Lock Connectors and Panel Mounts are UL 50E enclosure type 4X and IP65 rated when used with a mating connector or a panel-mount, watertight cover (spring-loaded or bean chain covers are available). Panel-mount versions offer quarter-inch solder tabs to use with standard spade connectors in electrical connections; devices are also available in inline versions.

The Insul-Lock Plus line are ideal for demanding entertainment and lighting applications that require durability and reliability. For ease of use, the connectors also feature a quick-release, vibration-resistant latch.

Features & Benefits: 20A, 250V AC rated ■ Rated for disconnect under load ■ IP65 rated ■ UL 50E Type 4 rated when used with weatherproof covers ■ Extremely robust and reliable ■ Connectors accept up to 12/3 AWG SO cable which meets NEC 520.68 requirements for extra-hard usage cords or cables ■ Panel mount devices accept commonly available .25" spade style connectors ■ Industry standard mating, interchangeable with installed base ■ Impact resistant thermoplastic construction

POWERCON 32 A

The 32 A powerCON is an extremely robust and reliable locking single phase AC appliance cable connector for high current capacity (32 A rated). It is conceived as a non-standardized 3 pole connection system without breaking capacity to serve the needs of high power distribution systems and supplies for professional audio and lighting equipment and installations. The connectors comprise of contacts for phase, neutral and protective earth (ground) conductors rated for currents up to 32 A and for voltages up to 250V.

MINIATURE 25 AMP POWER CONNECTOR

Ideal for use with LED lighting and other applications including multiple screen video walls. The rear of the connector is black to blend in when used in visible areas. Available in both inline and panel mount styles, Hubbell's Insul-Lock™ Connectors have a quick release, vibration resistant latch. Hubbell's connections intermate with other similar brands.

Features & Benefits: Connectors accept up to #12/3 AWG SO cable ■ Color coded blue for power in and gray for power out ■ Panel mount devices accept commonly available .25" Spade style connectors. ■ Industry standard mating ■ Impact-resistant thermoplastic construction ■ Meets NEC 520.68 requirements for extra-hard usage cords or cables. ■ Complies with existing industry conventions ■ Simplifies installation for domestic OEM's ■ Interchangeable with installed base ■ Suitable for use in UL1640 applications

Hubbell Insulgrip plugs and connectors continue their long-standing tradition of leadership as well as innovative design. The tough nylon body provides impact and chemical resistance commonly needed in the Entertainment Industry. The durable and powerful offsetting cord grip clamps on individual connectors and outer cord jackets to prevent strain on the terminals.

POWER CONNECTORS - POWER TWISTLOCK

Hubbell Insulgrip® Twist-Lock's rugged construction features roomy wiring chambers, superior strain relief and powerful cord grip designs. The Insulgrip® Twist-Lock current carrying blades are protected by a fixed shroud, shielding them from deformation. The shroud virtually eliminates user contact with a partially engaged, energized plug. For wet environments, Hubbell offers the Watertight Safety-Shroud Twist-Lock series. These products have a UL Type 4X enclosure rating.

Industrial grade construction and an all black ribbed nylon housing provides excellent impact resistance and hides well on stages and in theaters. The connector housings are beveled to prevent the connector from catching on stairs or equipment. Oversized mechanical clamp traps cord for exceedingly strong grip, eliminating strain on terminals. These plugs are quick and easy to install with wire entrance holes that are close together. Terminal screws are color coded for safety and provided in the "open" position for quick wire install. All devices are UL listed and CSA certified.

TWISTLOCK POWER ACCESSORIES

TWIST-LOCK® COLORED CORD CLAMPS

Hubbell Wiring Device-Kellems Twist-Lock® Colored Cord Clamps are used with 20A and 30A Insulgrip® Twist-Lock® Plugs and Connectors for quick visual identification of circuits or configurations.

Specifications: Size 2 - For use with 20A and 30A Hubbell Insulgrip® Twist-Lock® Plugs and Connectors, with cord diameter range of 3 wire .350"-.930" (9-24), 4 & 5 wire .350" - 1.150" (9-29) only. ■ Clamp only, contains no screws. ■ Colors: Black, Blue, Green, Red, White

power products

bates® Inlines

Bates stage pins have been the industry standard for stage lighting devices. Bates UltraDur connectors are manufactured from an extreme temperature tolerant nylon compound. This UltraDur Nylon performs in extreme temperatures to 500 deg F and is highly durable and resilient to punishing impacts. Bates stage pin connectors offer years of reliable service in the most demanding environments. The pins are crafted from solid brass rod machined to +/- 0.0005" tolerance while allowing the pins to float which allows positive alignment and pin contact, which is critical to device life. Precision slotted and crimped female contacts are sized to provide constant spring contact pressure even when the pins are damaged. The 2 piece strain relief accommodates a wide range of wire sizes. All 20 A Bates stage pin inlines are available with clear or black tops while the stage pin panel mounts can be ordered in specific colors. 20 A covers available in colors by special order. 100 A 250V stage pins are available in yellow to denote the unique voltage rating. UL Listed.

Hubbell Wiring Device-Kellems Stage Pin Devices solve many of the problems end-users experience when using these types of devices to connect dimmers to stage lighting instruments and to power other types of equipment. These Stage Pin devices feature a removable sleeve that is highly heat resistant; the heat generated at the connection doesn't negatively impact device performance. Designed with super-tough, engineered thermoplastic, the Stage Pin Devices are lightweight, impact resistant, easy to handle with an ergonomic shape, and simple and convenient to wire with removable contacts that snap into place.

The devices also offer adjustable strain relief, with the ability to accommodate the widest cable range of any stage pin device while exceeding UL requirements. Because these devices run cooler than the average stage pin device, they provide improved performance and a longer lifespan. Available in 20 Amp, 60 Amp, and 100 Amp versions, Hubbell Wiring Device-Kellems' Stage Pin Devices are compatible with installed bases of stage pin devices, so they can be used with other suppliers' products. These Stage Pin Devices were designed specifically for film and TV studios, theaters, schools and universities, and contractors that build equipment for these types of applications.

SOFT 3FER - MALE-FEMALE-FEMALE-FEMALE
CO-CLCA3FSTA-M

Specifications: Cam Soft 3-Fer 400A/600V M-F-F-F, 1 male to 3 female splitter with 24" flexible cable ■ Power Ratings: 400 amps / 600 volts max ■ Size: 6" x 32" x 1.5" ■ Weight: 2.4 kgs/4.5 lbs ■ Color: Black ■ Housing made of a High Impact, High Temperature resistant Super tough Nylon.

HBLM3FBK SINGLE POLE TRI-TAP CONNECTOR - MALE-FEMALE-FEMALE-FEMALE
CO-CLCA3FA-H

Hubbell's Single Pole connectors are made from a specially formulated thermoset rubber that resists cracking in cold, hot or oily conditions as well as any other harmful environments that may be found within the Entertainment Industry. The connectors are easy to assemble, requiring no special tools. A high strength, non-conductive retaining screw securely locks the contacts to the insulated sleeves. These Single Pole connectors are completely interchangeable with other manufacturer's single pole products. The product is UL Enclosure Type 3R, 4X and 12K Rated.

Specifications: Single pole Tri-Tap connector ■ Male-Female-Female-Female connection ■ Power Input: 600vAC/250vDC Maximum ■ Current Draw: 400 amps Maximum ■ Approvals: UL and cUL listed ■ Size: 5.88" x 5.78" width ■ Weight: 1.1 kgs/2.3 lbs ■ Color: Black ■ Housing Compound: Thermoplastic Elastomer ■ Contact Material: Brass ■ Retaining Screw Material: Nylon

Hubbell Wiring Device-Kellems Snap Back Covers are made with stainless steel offset, spring and pin. Designed for surface mount or internal mount, the snap back plastic covers are fully gasketed and NEMA 3R rated for weather tight protection. Snap back spring hinge cover designed to fit all 400A cam-type panel mounts.

Specifications: Snap Back Cover fits 300/400A Panel Mount Receptacles ■ Single Pole Device ■ 3R, 4X And 12K NEMA Rating ■ Size: 0.58" x 2" x 3.85" ■ Weight: 0.0454 kgs/ 0.1 lbs ■ Material: Steel

Manufactured in UV-resistant polycarbonate, all Snap Back plastic covers are made with stainless steel offset, spring and pin. Designed for surface mount or internal mount, the snap back plastic covers are fully gasketed and NEMA 3R rated for weather tight protection. Snap back spring hinge cover designed to fit all 400A cam-type panel mounts.

Specifications: Made for Through Mount Panel .070 - .090" ■ 3/16 stainless pin swaged both ends ■ 0.040 wire steel torsion spring 6 coils ■ Size: 0.58" x 2" x 3.85" ■ Weight: 0.0454 kgs/ 0.1 lbs

PROTECTIVE CAP SERIES 16 300A/400A

Colored Protective Caps are made from a specially formulated thermoplastic elastomer (TPE) that resists cracking in cold, hot or oily conditions as well as any other harmful environments that may be found within the Entertainment Industry. include a lanyard.

Colored Protective Cap for Series 16, fits 300 and 400 amp single pole locking female devices.

Specifications: Size: (LxWxH) 11.27" x 2.57" x 1.48" ■ Weight: 0.25 lbs ■ UL Listed ■ Material: Insulator Material: Thermoplastic Elastomer (TPE)
 ■ Lanyard cable: steel, plastic coated, sleeve is anodized aluminum

The Hubbell 150 amp single pole connector is made of thermoplastic elastomer for long lasting durability and protection. The cable size is #8 - #2 AWG with an extra long non-conductive inner sleeve. Turn and Lock Symbol aids in the mating of devices. Easily identifiable cable with cut off points for secure fit.

Specifications: Taper Nose, single pole plug ■ Terminal Connection: Double Set Screw ■ Current Draw: 150 Amps maximum ■ NEMA 3R, 4X, and 12 ratings ■ Approvals: UL and cUL listed ■ Power Input: 600vAC Maximum; 250vDC Maximum ■ Size: 4.60" x .95" ■ Female Weight: 0.345 kgs/0.76 lbs Male Weight: 0.077 kgs/0.17 lbs ■ Color: Black, Blue, Green, Red, White ■ Material: Thermoplastic Elastomer ■ Contact Material: Brass ■ Retaining Screw Material: Nylon

Cam-type waterproof locks built for reliable service under all conditions with Advanced Devices signature integrity of design and quality construction, the new CLM Series is NEMA 3R and 4 rated for weather tight construction, CSA and CUS listed 150A/600V and meets 1999 NEC standards for locking connectors.

Specifications: Current Draw: 150 Amps maximum ■ Size: .875" dia. x 4.25" ■ Weight: 0.0822 kgs/0.1813 lbs ■ Color: Black, Blue, Green, Red, White

GOBOS

Metal, glass and dichroic gobos in all sizes. Custom and standard patterns. Specify pattern, fixture and gobo size when ordering. Lead times and camera ready art are required.

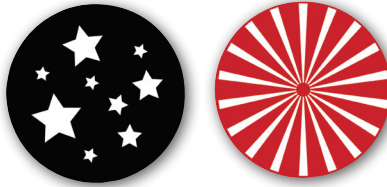

Gobos enhance design by creating great visuals on walls, floors, backdrops and other scenic elements. They can even be used in place of scenery. The appearance of the image can be affected and/or enhanced through the use of color filters and the angle and focus of the light being used, allowing for additional design flexibility.

Colored glass gobos project clear, crisp detailed photos, images or logos that require specific color matches or any images with gradients of color. They are designed for maximum temperature tolerance and longer life in higher wattage ellipsoidal and intelligent lights.

Glass Gobo Specifications: Thickness: 1.10 mm ±0.1 mm ■ Color Tolerance: ±5 nm ■ Operating Temperature: High Temp Borosilicate, Glass Material: 400°c

Examples of 1 color glass gobos:

Examples of 2 color glass gobos:

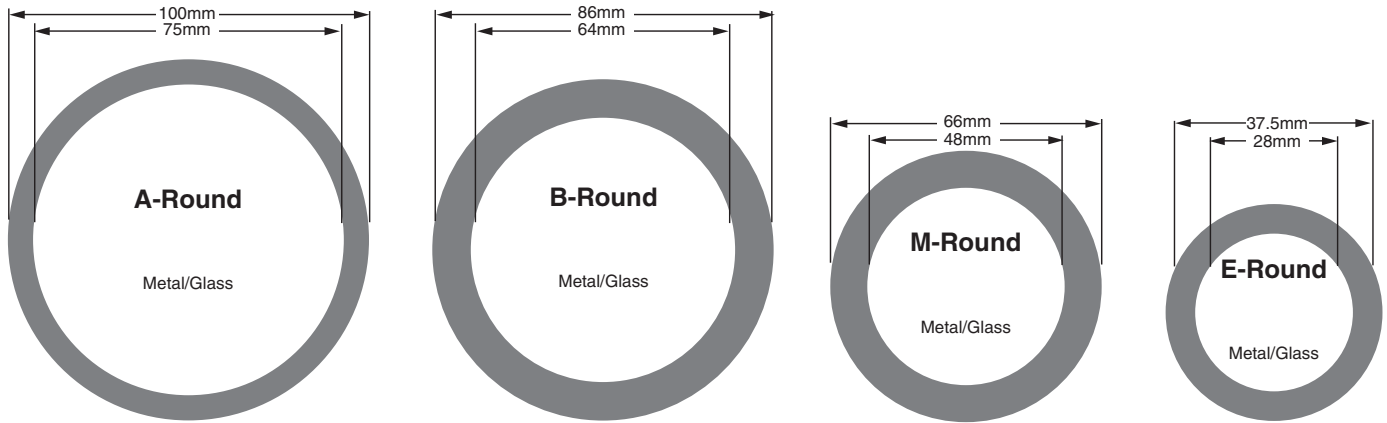

Glass Gobos produce the sharpest images with the most clean details without attachment metal wire frames. They are more heat-resistant and available in custom or stock patterns. Glass gobos come in 1 color, 2 color, or full color. Black is considered a color and Clear (White) is not. On a glass gobo, in order to "black out" portions of your image, a black coating must be applied. In order to have white, the surface of the glass is simply left uncoated. Therefore, Black or black out is counted as a color, whereas White or no color is not.

<i>Architectural Projectors</i>	Varies	Varies	Any architectural unit that utilizes gobos. Specify make & model.

METAL GOBOS (B & W)

APOLLO metal gobos are made from 8 mil stainless steel with a high level of nickel and chromium. This type of steel produces a very durable gobo with fine detail image and a long life. A metal gobo will only produce a black and white image but color can be added using gel.

ROSCO steel gobos on thin (5 mil) steel yield a better projected image, it also produces a gobo that retains less heat than thicker steel gobos. A metal gobo will only produce a black and white image but color can be added using gel.

METAL GOBOS

Product Code	Specifications
APOLLO	
GB-AMETCUS1ST	Apollo Gobo Metal Custom Original - Must supply artwork and specify gobo size / fixture. Order this as first original custom gobo which includes all art setup charges.
GB-AMETCUSDUP	Apollo Gobo Metal Custom Duplicate - This is a duplicate custom metal gobo. To order this, must first have ordered a Custom Original Gobo. Specify gobo size.
GB-AMETSTD1ST	Apollo Gobo Metal Standard Pattern 1st - This is a Standard Apollo Gobo design. Must order at least one gobo as 1st metal. All other standard metal patterns, order as Gobo Standard Additional.
GB-AMETSTDDUP	Apollo Gobo Metal Standard Pattern Additional - Use this Gobo Standard Pattern for all additional metal gobos, after you have ordered at least one metal standard as 1st pattern.

GB-RMETSTDDUP	Rosco Gobo Metal Standard Pattern Additional - Use this Gobo Standard Pattern for all additional metal gobos, after you have ordered at least one metal standard as 1st pattern.

GOBO HOLDERS

bSCULPT LED PROFILE GOBO HOLDER METAL SIZE BR

GH-MSCLPB/B

Sandwich type Gobo Holder with plastic handle that allows metal patterns to be held in the appropriate slot of an bSculpt LED profile series light fixture. Size BR Gobo open area: 2-3/4", overall holder width 93mm

Specifications: Size: 3-11/16" x 8-5/8" x 1/8" ■ Weight: 0.076 kgs / .168 lbs ■ Material: Aluminum ■ Color: Black

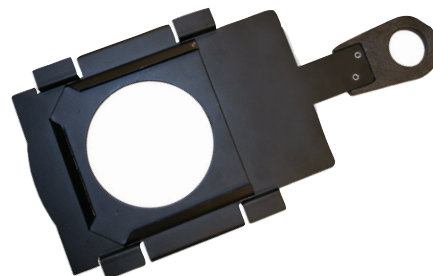

ROSCO UNIVERSAL IRIS SLOT GOBO HOLDER

GH-GRUB86

The Universal Iris Slot Holder has been carefully tooled and engineered to fit into many of the new generation of ellipsoidal fixtures including the ETC S4, Altman Shakespeare, Strand SL, Selecon Pacific Cool Lights and Leviton LEO. An Iris Slot Holder allows a glass pattern to be placed in the Iris Slot of a fixture in the front of the gate, necessary for some thicker glass gobos. In addition the Universal Iris Slot Holder is double sided allowing you to use two gobos, glass and/or steel, in the iris slot at the same time. Use only for 86mm standard B size gobos.

Specifications: Holds "B86mm" sized glass patterns and metals gobos n Fits in iris slot n Size: 9.25" x 4.56" x 0.49" n Hole Diameter: 2-5/8" dia n Weight: 0.22 kgs/0.48 lbs

APOLLO GOBO SUPERHOLDER SOURCE4 METAL & GLASS SIZE B

GH-MGS4B

Gobo Holder is made from quality aluminum material with a durable handle (lifetime replacement guarantee if handle breaks). The Gobo Holder easily converts to hold both metal or glass patterns. Pop-out the retaining ring and insert the gobo and replace the ring. Holds "A" or "B" (79mm) glass. Open Area: 2-3/4" and Width: 3-11/16"

Specifications: Holds "A" or "B" sized glass and metal patterns ■ Fits slot size of 3/16" ■ Made of machined aluminum ■ Size: 9.375" x 3.75" x 0.25" ■ Weight: 0.142 kgs/0.313 lbs

CITY THEATRICAL GLASS GOBO HOLDER, B-SIZE FOR ETC SOURCE FOUR

GH-GS4B/82 Holder Diameter 82 mm

GH-GS4B/86 Holder Diameter 86 mm

Gobo Holder is made from quality aluminum material with a durable handle that allows glass patterns to be conveniently held in the appropriate slots of a light fixture.

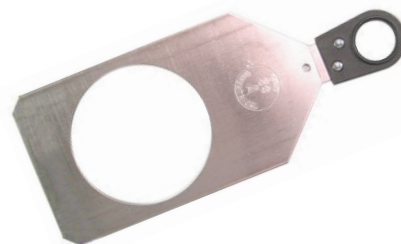

Specifications: Holds "B" sized glass patterns ■ Fits slot size of 3/16" ■ Size: 9.25" x 3.75" x 0.25" ■ Hole Diameter: 3-1/8" dia ■ Weight: 0.094 kgs/0.21 lbs

CITY THEATRICAL SANDWICH GOBO HOLDER S4 "A"

GH-MS4A

Sandwich type Gobo Holder is made from quality aluminum material with a durable handle that allows metal patterns to be conveniently held in the appropriate slots of a light fixture. For use with Source4 type slotted fixtures. Size A Gobo open area: 3-3/16", overall holder width 3-11/16".

CITY THEATRICAL SANDWICH GOBO HOLDER S4 "B"

GH-MS4B

Sandwich style metal gobo holders are designed to keep metal stainless steel gobos flat, and to act as a heat sink to extend their life. Plastic ring pulls protect your fingers from the hot lighting fixtures. The durable handle has a lifetime replacement guarantee if handle breaks.

Specifications: Open Area: 2-3/4" and Width: 3-3/4" For 'B'-size steel patterns/ gobos/ templates with an 86 mm (3-3/8") Outside Diameter, and a 64 mm (2-1/2") Image Area diameter.

CITY THEATRICAL SANDWICH GOBO PATTERN HOLDER ALTMAN 360Q SHAKE-SPEARE B SIZE GH-M360Q

Optional Gobo Holder for Altman 360Q or Shakespeare ellipsoidal fixture. Supports for positioning B-Size patterns, or templates, in just the optical center of ellipsoidal spotlights.

Specifications: Holds "B" sized metal patterns ■ Fits slot size of 1/4" ■ Size: 7.38" x 3.31" x 0.32" ■ Hole Diameter: 3-1/8"dia ■ Weight: 0.051 kgs/0.113 lbs

DEXEL PATTERN HOLDER FOR 5016 & 5017 ELLIPSOIDS GH-MDXEB

Specifications: Holds "B" sized metal patterns ■ Fits slot size of 1/16" ■ Made of black epoxy painted steel ■ Size: 7.5" x 4.625" x 0.15" ■ Weight: 0.14 kgs/0.3 lbs

LEVITON GOBO PATTERN HOLDER FOR LEO SERIES ELLIPSOIDAL FIXTURES GH-MLEO

Specifications: Holds "A" or "B" sized metal patterns ■ Fits slot size of 3/32" ■ Made of zinc plated steel ■ Size: 8.88" x 4.625" x 0.25" ■ Hole Diameter: 3-1/8"dia ■ Weight: 0.0766 kgs/0.1688 lbs

GOBO HOLDER PERFORMER MINI PROFILE - SIZE M GH-SH33086

Gobo Holder is made of metal. Allows M sized metal patterns to be conveniently held in the appropriate slot of the Performer Mini Profile fixture. M size gobo, 38 mm outer diameter, 26 mm image area Overall dimensions: 2.875"H x 1.56"W

ROSCO SIMPLESPIN™ DUAL GOBO ROTATOR GH-ROTSSD

SimpleSpin™ combines the perfect mix of a budget conscious price tag and features that really matter to a designer, electrician or event planner. A single, variable speed stepper motor is used to rotate two B size gobos. Always rotating in opposition, the movement can be as slow as 0.5 rpm for building subtle, naturalistic effects. The maximum speed of 24 rpm is perfect for creating a raging inferno or wild kinetic effects.

SimpleSpin™ is primarily a manual control, "set and forget" device. Define the perfect look for your lighting effect by precisely trimming the speed control knob and then simply power the SimpleSpin™ up and down from the mains. This is especially convenient in venues where more sophisticated DMX control is either unavailable or unnecessary. In instances where varying speed control is needed, SimpleSpin™ can be plugged into a dimmer and controlled by a lighting desk. Configured this way, the speed of rotation will increase or decrease as the level on the dimmer goes up or down.

"Stall proof" is how one technician described the SimpleSpin™. Using a stepper motor and thoughtfully engineered control circuitry avoids one of the most common complaints lodged against budget rotators - low speed stalls and insufficient torque.

Specifications: Gobo Type: Metal, Glass, Effects Glass ■ Gobo Size: OD Max 86 mm (3.39"), OD Min 80 mm (3.15"), IA Max 75 mm (2.95"), Thickness Max: 3.5 mm (0.14") ■ Speed: 0.5 rpm - 24 rpm ■ Precision: 370-degree, 8-Bit Indexing - 370-degree (1.45-degree steps), 370-degree, 16-Bit Indexing - 370-degree (0.005-degree steps) ■ Control: On board potentiometer Dimmer-Remote Option ■ Fixture Compatibility: ETC Source Four, ETC S4 Zoom, Selecon Pacific, Selecon Pacific Zoom, Strand SL, Altman Shakespeare ■ Size: 4.67" x 10.375" x 0.53/2.4", 119 mm x 263.5 mm x 13.5/62 mm ■ Weight: 22.4 oz/1.4 lbs ■ Power Input: 100-240VAC 50/60hz 1A max ■ Connector Type: IEC C13 on Mains power cable ■ Size: 9.25" x 4.56" x 0.49" ■ Hole Diameter: 2-5/8"dia ■ Weight: 0.22 kgs/0.48 lbs

TIE LINE

High strength tie line, also known as trick line or sash cord, for curtain fastening and cable wrapping. Coated tie line keeps it from fraying easily when you cut it, making it easier to pass through curtain and banner grommets.

TAPES

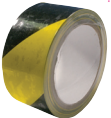

Get the right tape for the right job. All specialty tapes have unique properties.
Offered in various grades, sizes, and colors.

- **Gaff tape** is engineered to be removed and not leave adhesive residue on cables or surfaces. It is normally cloth based and offered in many colors. Its non-reflective matte properties make it useful on dark stages, photo shoots and curtains. Water resistant, high temperature and weather resistant.
- **Spike tape** features a high performance adhesive system. Spike tape is highly conformable to irregular surfaces. Waterproof and abrasion resistant, Spike tape is used to mark stages for actors, directional signal for dark stages, and color-coding.
- **Stage tape** is an economical version of gaff tape. It features the same adhesive backing and matte finish.
- **Console or board tape**, also known as artist tape, is used for labeling control boards. It features a special adhesive that will pull away from your audio or lighting console at time of removal.
- **Paper tape** professional photo masking tape
- **Duct tape** (commercial grade) is a vinyl based tape with a normal adhesive.
- **Double sided tape** is mainly used on convention and trade show floors for attaching carpet. Cloth type pulls off easier at removal time and leaves no residue.
- **Electrical tape** U.L. listed electrical tape
- **Glow tape** is used for stage marking and outlining. It phosphoresces after 30 seconds of light exposure. Brightest for initial 30 minutes and remains visible in dark areas for up to 8 hours.
- **Caution tape** features diagonal black and yellow lines to OSHA standards. Used on stage steps and to mark danger areas. Vinyl material with standard adhesive.
- **Gel repair tape** Heat resistant clear tape to repair torn gels. Used for joining gel for color scroller.
- **Black matte** wrap is used for covering and masking off light.
- **Duve-Pro** can be used to join Duveltyne material and blend into backdrops. Great for quick patches and repairs on duveltyne and commando cloth soft goods. Black Polyester Felt with Acrylic Adhesive Opaque Backdrop Tape. Also used for Truss Wrap.

VINYL TAPE				
	TP-FLOOR2GY-PRO	Pro-Splice is a premium vinyl tape designed for safety marking and dance floor splicing. Pro-Splice satisfies all O.S.H.A. marking requirements.	Gray	2" x 36 yds
CONSOLE / BOARD / PAPER TAPE				
	TP-PAPER12WH	1/2 inch white console or board tape, also known as artist tape, is used for labeling control boards. It features a special adhesive that will pull away from your audio or lighting console at time of removal. White color is PH Neutral - Acid Free.	White	1/2" x 60 yds
	TP-PAPER34WH	3/4 inch white console Console or board tape, also known as artist tape, is used for labeling control boards. It features a special adhesive that will pull away from your audio or lighting console at time of removal. White color is PH Neutral - Acid Free.	White	3/4" x 60 yds
	TP-PAPER1BK	An opaque black photographic masking tape with a matte finish that insures the light free masking required for high quality photo reproduction. Pro-Photo is a versatile, reliable tape for use in photo studios, film processing labs, as well as home dark rooms.	Black	1" x 60 yds
	TP-PAPER1BK-743	Shurtape P743 Photographic Masking Paper Tape. An opaque black photographic masking tape with a matte finish that insures the light free masking required for high quality photo reproduction. Pro-Photo is a versatile, reliable tape for use in photo studios, film processing labs, as well as home dark rooms.	Matte Black	1" x 60 yds
	TP-PAPER1WH	1 inch white console or board tape, also known as artist and paper tape, is used for labeling control boards. It features a special adhesive that will pull away from your audio or lighting console at time of removal. Flatback paper tape used for color coding & labeling. Artist tape has a repositionable clean removal adhesive system that does not leave any residue. Printable with flexolinks, markers, pens, & pencils. White color is PH Neutral - Acid Free	White	1" x 60" yds
	TP-PAPER2BK	2 inch opaque black photographic masking tape with a matte finish that insures the light free masking required for high quality photo reproduction. Pro-Photo is a versatile, reliable tape for use in photo studios, film processing labs, as well as home dark rooms.	Black	2" x 60" yds
	TP-PAPER2BK-743	Shurtape P743 Photographic Masking Paper Tape. An opaque black photographic masking tape with a matte finish that insures the light free masking required for high quality photo reproduction. Pro-Photo is a versatile, reliable tape for use in photo studios, film processing labs, as well as home dark rooms.	Black	2" x 60" yds
	TP-PAPER2WH	2 inch white console or board tape, also known as artist and paper tape, is used for labeling control boards. It features a special adhesive that will pull away from your audio or lighting console at time of removal. Flatback paper tape used for color coding & labeling. Artist tape has a repositionable clean removal adhesive system that does not leave any residue. Printable with flexolinks, markers, pens, & pencils. White color is PH Neutral - Acid Free.	White	2" x 60" yds
DOUBLE SIDED CLOTH CARPET TAPE				
	TP-DOUBLE1	11 mil (0.275 mm) exclusive of liner - A Cotton/Polyester Blend Cloth coated on both sides with an extremely aggressive rubber based adhesive. - RESIDUE FREE - Blue silicone coated polyethylene release liner. Adhesion to Steel: 40 oz/in. Tensile: 20 lbs/in. Used for carpet hold-down and other general purpose uses. This product is extensively used in the convention and trade show industry as it will leave no adhesive residue upon removal from the substrate.	Natural. 3" Neutral Core/ Carton.	1" x 25 yds
	TP-DOUBLE2			2" x 25 yds

FRICTION TAPE				
<p>3M™ Temflex™ Friction Tape 1755 is a high-grade, black friction tape designed to provide mechanical protection against abrasion and cut-through for cable, wire splices and connections insulated with rubber electrical tape. The 13-mil thick tape is composed of a high-quality cotton fabric, coated on both sides with an electrical-grade, solvent-free, rubber adhesive. 3M Temflex Friction Tape 1755 has high break strength and low stretch, making it ideal as a heavy-duty binding and harnessing tape.</p> <p>Applications:</p> <ul style="list-style-type: none"> • Provide abrasion and cut-through protection on wire and cable splices • Provide mechanical protection for rubber electrical tape • Provide bundling, binding and spot holding on wire harnesses • Provide protection on sharp edges, to prevent scratching or cut through 				
	TP-FRIC34-1755	<p>Specifications: 3M™ Temflex™ Friction Tape 1755</p> <ul style="list-style-type: none"> ■ Adhesive: Rubber coated on both sides ■ Material: Cotton cloth with thermosettable rubber resin ■ Total thickness: 13 mils ■ Insulation class: 176°F (80°C) ■ Tensile strength: 48 lbs/in. ■ Adhesion to backing: 40oz ■ Individually wrapped 	Black	3/4 inch wide x 60 feet long Core: 1.5 inch
<p>PRO FRICTION Abrasion Protection Tape is a high quality cotton fabric coated on both sides with a black rubber adhesive compound which provides good adhesion to all types of surfaces.</p> <p>Application:</p> <p>Pro Friction is a general purpose tape that provides excellent protection against abrasion. Pro Friction is ideal for use as a heavy duty binding and harnessing tape because of its high break strength and low stretch. Pro Friction can also be applied over tool handles for non-slip grip.</p>				
	TP-FRIC34-PRO	<p>Specifications: PRO FRICTION Abrasion Protection Tape</p> <ul style="list-style-type: none"> ■ Adhesive: Electrical grade black rubber coated both sides ■ Material: Cotton cloth ■ Total thickness: 13 mils ■ Temperature Resistance up to 176°F (80°C) ■ Tensile strength: 48 lbs/in. ■ Adhesion to backing: 40 oz ■ Adhesion to steel: 40 oz./in ■ Solvent Free 	Black	3/4 inch wide x 60 feet long Core: 1.5 inch
CAUTION TAPE				
	TP-STRIPE2YB	Caution tape features diagonal black and yellow lines to OSHA standards. Used on stage steps and to mark danger areas. Vinyl material with standard adhesive.	Stripe Yellow/Black	2" x 18 yds
	TP-STRIPE3YB		Stripe Yellow/Black	3" x 18 yds
BARRICADE TAPE NON-ADHESIVE				
	TP-BARR/Y	Hazard identification barricade tape in solid yellow, used to lace from barricade to barricade. Non-adhesive polyethylene	Yellow no imprint	3" x 1000' roll
GEL REPAIR TAPE				
	TP-JLAR1	Gel repair tape. Heat resistant clear tape made by Shurtape to repair torn gels. Much stronger than cellophane or acetate. Clear to the core. TAPPI specification T-428 PM-83. Will not yellow with age or discolor objects after being applied.	Clear	1" x 72 yds
	TP-JLAR2		Clear	2" x 72 yds

BlackTak LIGHT MASK FOIL				
	TP-BLACKTAK2 TP-BLACKTAK24	BlackTak is used for masking light spill, creating shadows, forming barndoors, adapting templates, and as a high temperature tape. Can be repositioned without leaving residue.	Black	2" x 75 ft 24" x 15 ft
BLACK MATTE WRAP				
	TP-WRAPBLK12 TP-WRAPBLK24	Cinefoil black matte wrap aluminum foil is used for covering and masking off light leaks. It can also be used to eliminate unwanted reflections. Quickly mold to form barndoors, flags and other blocking shapes.	Black	12" x 50 ft 24" x 25 ft

LED LIGHT DIFFUSERS

UltraGel

Light Diffusers

Features:

- Variety shaping degrees: 10, 20, 30, 40, 50, 60, 80, 10 x 30, 60 x 1
- Eliminates hotspots
- Produces a more homogenous LED color blending
- Helps reduce glare from LED unit lenses
- Minimal light loss, up to 93% efficient
- Easy to use and cut
- Various flexible polymer materials
- UV stable
- Cleanable with Windex™
- Moderate heat tolerance for LED and Fluorescent light sources
- Supplied in 12" width by any length but sold in small 1 inch linear increments

Light diffusers are a complete line of film lenses which are able to optically alter the output beam shape of any light source in varying degrees of diffusion strengths and profiles. Ranging from mild to strong diffusion, symmetric, and asymmetric beam control, light diffusion can be used as an accessory in many applications where precise light control shaping is desired. Using these highly efficient films you can manipulate the output distribution with a circular (symmetric) or elliptical (asymmetric) profile. These diffusion films will increase luminance uniformity and help eliminate LED "hotspotting" and dark regions with minimal light loss. Light diffusion films are particularly effective when color mixing RGB LEDs or multiple bins of the same color LED. Use these films to create a consistent color output that improves fixture aesthetics. Due to unique optical characteristics, diffusion films are an efficient way to "hide" point light sources, and other bulbs. Light diffusion lenses are also called holographic film.

UG-LD1030 Specifications: 10 x 30 degree asymmetrical beam spread ■ Base Material: PC ■ Transmission: 89% ■ Finish Gloss: High ■ Thickness: 9.06 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 12" wide ■ Sold by the linear inch (each is 12" x 1" increments)

UG-LD2020 Specifications: 20 x 20 degree symmetrical beam spread ■ Base Material: Acrylic ■ Transmission: 91% ■ Finish Gloss: High ■ Thickness: 3.94 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 12" wide ■ Sold by the linear inch (each is 12" x 1" increments)

UG-LD3030 Specifications: 30 x 30 degree symmetrical beam spread ■ Base Material: Acrylic ■ Transmission: 90% ■ Finish Gloss: High ■ Thickness: 23.62 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 12" wide ■ Sold by the linear inch (each is 12" x 1" increments)

UG-LD4040 Specifications: 40 x 40 degree symmetrical beam spread ■ Base Material: Acrylic ■ Transmission: 93% ■ Finish Gloss: High ■ Thickness: 7.28 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 12" wide ■ Sold by the linear inch (each is 12" x 1" increments)

UG-LD6001 Specifications: 60 x 1 degree asymmetrical beam spread ■ Base Material: PC ■ Transmission: 82% ■ Finish Gloss: High ■ Thickness: 3.35 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 12" wide ■ Sold by the linear inch (each is 12" x 1" increments)

UG-LD6060 Specifications: 60 x 60 degree symmetrical beam spread ■ Base Material: Acrylic ■ Transmission: 89% ■ Finish Gloss: Low ■ Thickness: 19.7 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 12" wide ■ Sold by the linear inch (each is 12" x 1" increments)

UG-LD8080 Specifications: 80 x 80 degree symmetrical beam spread ■ Base Material: Acrylic ■ Transmission: 75% ■ Finish Gloss: High ■ Thickness: 19.7 mils ■ Typical operating range: -30 to +80 degree celsius ■ Roll Size: 11" wide ■ Sold by the linear inch (each is 11" x 1" increments)

ROSCO

OPTI-SCULPT™

Engineered For Precise Beam Sculpting

Features:

- Engineered and laboratory tested for accurate and repeatable beam shaping
- High transmission vs standard diffusion materials
- Available in 20"x24" and 40"x24" SEAMLESS sheets
- Manufactured using heat-resistant, flame-retardant polycarbonate
- Designed for LED fixtures, but also suitable for use on conventional fixtures
- Durable - The filter's performance is not adversely affected by dust or fingerprints
- Available in six patterns: 10°, 10°x20°, 10°x30°, 10°x60°, 15°x35° and the unique, reversible 40°/60°

Rosco OPTI-SCULPT filters provide precise angular beam control – enabling lighting professionals to accurately and affordably control the shape of their light. Rosco's unique, proprietary process offers increased brightness with engineered light distribution that has been laboratory tested for accuracy and repeatability.

Specifications: Beam Spread: 10° ■ Thickness: 10mil (254µ) ■ Substrate: Clear polycarbonate (with flame retardant additive) ■ 20" x 24" (50cm x 60cm) Sheet – Seamless ■ Softening Temperature: 320°F (160°C) ■ Melting Temperature: 425°F (220°C) ■ Transmission: >85% ■ Flame Retardant Rating: M1, B1, C1, BS3944 PART 1 1992, NFPA 701

UltraGel

A complete quality line of gels and filters for lighting applications.

UG-SWATCHBOOK

Ultra-Gel is a complete quality line of gels and filters for lighting applications. Using state of the art equipment these filters are manufactured by coating the surface of both sides of clear polyester film with a liquid colored lacquer. During the entire process an inline spectrophotometer ensures the proper color mixture and coating density. This method enables filters to be produced to a high degree of consistency and clarity of color. Filters create color by subtracting particular wavelengths of color out of a full spectrum light source, this is known as subtractive. As an example, a red gel absorbs blue and green, thus allowing only red wavelengths to pass. As a rule, the darker a color is, the more light it will absorb. Some filters are designed to shape light instead of change its color. Some examples of shaping may be to soften the edges of a light beam or widen the area of coverage. Many of our filters have Color Transmission Curve graphs attached. These graphs describe the wavelengths of color transmitted through the filter. The transmission percentage (T%) refers to the light that is allowed to pass through each filter. Always allow an air gap between any gel or filter and the light source. Actual gel colors may be different than they appear on your screen. Colors shown on this website are for relative comparison purposes only and may vary from monitor to monitor screen.

Specifications: Base Material: Polyester film ■ Melting Point: 356°F to 375°F ■ Flame Retardant ■ Thickness: colored gel types 3 - 4 mils, diffusion filter types 2 - 3 mils ■ Life: Varies depending on color, instrument, lamp output, level of dimming and length of constant exposure to light ■ Sheet Size: 21 x 24 inches ■ Weight: 0.034 kgs / 0.075 lbs

ROSCO**ROSCOLUX™ COLORS**

Roscolux is the most widely used color filter for theatre, film, television, live entertainment, retail and architectural applications. Developed with the top lighting designers in the industry, Roscolux is the first choice of designers who appreciate the wide choice of unique colors and diffusers, a color palette second to none. Roscolux filters are produced using two unique manufacturing processes; extruded color and deep-dyed color. Both processes allow for a color filter that withstands the rigors of use, controlled color tolerance, meets or surpasses flammability standards and is RoHS compliant.

Available in sheets of 20 in. x 24 in. (50 cm x 61 cm) or rolls of 24 in. x 25 ft. (61 cm x 7.62 m).

ROSCO**CINEGEL**

The Rosco Cinegel range includes over 200 tools for controlling light, including color corrections, diffusions, our patented CalColor System, The Storaro Selection and Cinelux. Since its introduction in 1970, Cinegel has continually developed and grown to meet the working needs of professionals working behind the camera. In 1974, Rosco was honored with an Academy Award for developing the Cinegel range and again in 1998 for the development of the CalColor range of calibrated colors for camera.

All of the filters in the Cinegel range are available in 20"x24" sheets and 48"x25' rolls, unless otherwise noted. The Cinegel range of color correction and color effects filters are manufactured using deep-dyed polyester for heat stability & superior color transmission.

DUVETINE COMMANDO CLOTH

DUVETINE

Duvetyne, also known as Commando Cloth is a cotton twill type fabric with velour type brushed nap on one side and flat matte finish on the other side. Its high opacity makes it ideal for blocking light and masking out areas. Duvetyne is the most economical fabric for controlling light spill. All film gaffer trucks, staging companies, and production houses always have a roll on hand! Duvetyne comes in 3 standards weights, 8, 12, and 16 ounces and is flame retardant.

The lightest weight, 8 ounce Duvetyne, is typically used for wrapping objects or below stages where there is no light source behind the material.

Twelve ounce Duvetyne, sometimes called Light Commando Cloth, offers additional opacity over the 8 ounce, making it ideal for backdrops. Little to no light pin holes are visible.

The heaviest weight Duvetyne is 16 ounces. It offers the most light control and is often used by the motion picture industry. It is ideal for drapes and as an alternative to velour.

Duvetyne Cloth FR 8 oz x 25 yard roll

SG-DUV8-25

Specifications: 7-9 ounce per yard ■ Size: 54" width x 25 yards ■ Bolt Weight: 5.91 kgs/13 lbs ■ Color: Black

POLY PLASTIC SHEET ROLLS

POLYETHYLENE

Polyethylene film, available in clear and black and comes in a variety of sizes and thicknesses, is a staple in the entertainment industry. Polyethylene Sheeting is waterproof, rot proof, and resistant to many chemicals. It is a reliable barrier to the elements.

The plastic sheeting rolls can be used for a wide variety of applications such as equipment cover, barrier for moisture and dirt, temporary walls such as a backdrop or curtain especially in offstage areas, use on stages for outdoor events to cover overnight stages and equipment, floor covering on location and weather-proofing.

POLYETHYLENE 4 MIL 20x100 FT ROLL - BLACK

SG-PE4-20100BK

This 20' x 100' 4 mil black polyethylene sheeting is durable, tear resistant and pliable.

This sheeting is sun-resistant black and lasts longer for outdoor applications. Heavy-duty sheeting is ideal for several different kinds of protection.
