Pioneer Dj

inspiration, innovation and performance.

Pioneer DJ is committed to bringing an uncompromised line of sound, visual and live performance products that combine advanced technologies and build quality. For over 15 years, Pioneer DJ products have been setting the industry standard, making them the premier choice for professional DJs worldwide.

We understand that the equipment must inspire, create desire, and most importantly - enhance the performance. With these goals in mind, we align our development teams with the most talented DJs from around the world to ensure that our products are state-of-the-art, hyper-flexible and deliver the best set control possible.

With a solid feel and class leading design, Pioneer DJ delivers exceptional audio/visual reproduction and control. All of our gear is engineered from the ground up to make expression accessible for everyone from aspiring DJs to professionals. Ultimately this allows the DJ to focus on their creativity to the art form, promote fun and inspire new music.

Pioneer

DVJ-1000

professional cd/dvd turntable

Offering the same operation and layout as the CDJ-1000MK3 but with enhanced DVD specifications, the fully loaded DVJ-1000 allows DJs to easily create and add visuals to their sets. Several groundbreaking features pump up the DVJ-1000's core CDJ-1000MK3 capabilities, while DVD visuals can be manipulated as you would music; so digital video scratches, loops and instant cues are all possible.

FEATURES:

- ▶ Realtime DVD audio and video manipulation
- ▶ 3 hot starts and loops
- ▶ Jogwheel feel adjust
- ▶ MP3 playback from DVD & CD
- ▶ Super-fast search function
- ▶ VSW-1 companion piece

Pioneer

CDJ-2000

professional multi player

The CDJ-2000 is the ultimate technologically advanced multi-format player in the world. No matter what your media preference is, the CDJ-2000 can handle them all with great performance, reliability, and confidence. It enables playback of MP3, AAC, WAV and AIFF audio files on CD, DVD-ROM, SD card and USB memory devices. You can also assign various buttons of the CDJ-2000 to trigger other devices, such as DJ effecters and software with MIDI mapping capability.

With Pioneer's new Pro DJ Link you can connect up to four CDJ-2000's and share a single music source from just one player. For displaying song titles, jacket art as well as detailed track information, the CDJ-2000 has a unique 6.1" full color LCD panel and graphic user interface. Both the CDJ-2000 and CDJ-900 turntables include rekordbox™, Pioneer's proprietary music management software.

FEATURES:

- ▶ Multi Format Playback
- ▶ Pro DJ link connects up to four CDJ-2000s that access one player's audio source
- ▶ 6.1" full color LCD panel and graphic user interface
- ▶ Instantly jump to specific song parts with Needle Search
- ▶ rekordbox™ music management software included
- ▶ HID & MIDI Control

Pioneer

CDJ-900

tabletop multi player

The CDJ-900's new multi-format digital turntable allows the DJ to access, search and control their content directly from the player itself. The CDJ-900 provides the same legendary quality, standards and playability of the DJM-800 with the added convenience of native playback of key DJ digital media files formats accessed via a multitude of compatible media: CD, portable hard drives and flash media devices. The CDJ-900 is compatible with today's top DJ performance computer software, and includes rekordbox™, Pioneer's proprietary music management software.

FEATURES:

- ▶ Multi Format Playback
- ▶ Pro DJ link connects up to four CDJ-900s that access one player's audio source
- ▶ Slip Mode creates smooth transitions
- ▶ Advanced Auto Beat Loop
- ▶ rekordbox™ music management software included
- ▶ HID & MIDI control

Pioneer

CDJ-850

performance multi player

The CDJ-850 player adopts many of the technical advances made in the industry standard pro-series versions and invites all levels of DJs to create, perform and share mixes like a professional. Pioneer is dedicated to bringing DJs the best audio/video and live performance products. For newer DJs looking to elevate and greatly enhance their performance and creativity, Pioneer's CDJ-850 delivers enhanced mixing features, excellent audio quality and a new platform for them to share their music.

CDJ-850-K

FEATURES:

- ▶ Playback from audio CD, Data CD, CD-R/RW and USB memory devices
- ▶ Tag List Function
- ▶ Advanced Auto Beat Loop
- ▶ Rich Display for quick and easy music selection
- ▶ rekordbox™ music management software included
- ▶ Available in original Silver or Solid Black

Pioneer Dj

Pioneer CDJ-350

digital multi player

The CDJ-350 will allow users to create DJ performances with various digital music files including MP3, AAC, WAV and AIFF files that are stored on different forms of media, including USB mass storage device class products or CD-R/RW discs. The media player also includes Pioneer's proprietary music management software, rekordbox™, making it possible to manage music files on a computer for quick song selection when played back on compatible Pioneer players.

FEATURES:

- ▶ Multi format playback
- ▶ rekordbox™ music management software included
- ▶ BEAT Display function visually illustrates the beat position of a song and the playback point
- ▶ Auto BPM LOCK matches tempo of songs by adjusting the speed to the Master BPM
- ▶ Available in Original Black or Metallic Silver

CDJ-350-S

Pioneer CDJ-200

tabletop cd/mp3 player

This player takes key elements from Pioneer's range of industry standard Professional CDJ players and introduces innovative features such as full-function MP3 playback, Hot Loop, Beat Loop and Pioneer's unique one button Beat Cutter. This technical brilliance is backed up by practicality—the unit is robust, compact and portable. A stunning industrial design, ensures that the CDJ-200 will appeal to the serious home DJ, bars and other installations where space is at a premium.

FEATURES:

- ▶ Plays MP3s
- ▶ Digital jog break effects
- ▶ Seamless looping
- ▶ Master tempo control
- ▶ CD text and MP3 track data display
- ▶ Fader start and relay play

Pioneer

MEP-7000

professional
multi-entertainment player

Offering the same basic functions and operation as the CDJ series, the new MEP-7000 reads CD/CD-ROM/DVD-ROM as well as USB media. In addition, the MEP-7000 accepts MP3/AAC/WAV/AIFF files giving DJs flexible media and mobility. The MEP-7000 is perfect for the mobile DJ who doesn't have much space to work in and wants access to a wide array of media.

FEATURES:

- ▶ Reads CD & DVD ROM
- ▶ Plays MP3, AAC, WAV, AIFF files
- ▶ Large 4.3 inch LCD display with video output for connecting an external monitor
- ▶ Auto Mix: Playback tracks registered on the "Play List" automatically
- ▶ High quality touch-sensitive Jog Dial, perfect for scratching and cueing
- ▶ Industry's first Area-Color OEL display
- ▶ HID & MIDI Control

PioneerDJusa.com

Pioneer

SEP-C1

professional software
entertainment controller

The SEP-C1 is a dual MP3 DJ controller that controls playback of MP3 music files stored within your PC. This player achieves full-scale DJ performance with CDJ operability, but without the use of a mouse or keyboard.

FEATURES:

- ▶ Plays MP3s
- ▶ Large 4.3 inch LCD display with video output for connecting an external monitor
- ▶ Instant change: mix tracks by simply pushing one button
- ▶ Industry's first area-color OEL display
- ▶ Touch-sensitive jog wheel
- ▶ Includes Pioneer's DJ software DJS

Pioneer Dj

Pioneer

DDJ-S1

dj controller

The DDJ-S1 allows for easy transfer of music from the user's laptop with a USB connection for simplicity and quick "plug-and-play" capability with Serato ITCH 2.0 DJ software. For additional convenience, the controller also comes with a space saving computer dock that allows a laptop's keyboard to slip directly under the controller, enabling its monitor to be closer to the DJ to provide fast visuals of song information while mixing. The device adopts Pioneer's "P-LOCK Fader Cap," designed to prevent the fader caps from slipping.

FEATURES:

- ▶ Plug and play USB connectivity with 2-channel deck control
- ▶ Serato ITCH 2.0 DJ software and added functionality included
- ▶ Multiple input and output options
- ▶ Specially designed user interface
- ▶ Optimized controller for highest quality sound
- ▶ P-LOCK Fader Cap lock mechanism design
- ▶ Premier built-in sound card
- ▶ Mic inputs equipped with talk-over function

Pioneer

DDJ-T1

dj controller

The DDJ-T1 easily connects with a user's laptop via USB for quick "plug-and-play" capability with TRAKTOR Pioneer DDJ-T1 Edition 2 DJ Software. For further convenience, the controller also comes with a computer dock that allows a laptop's keyboard to slip directly under the controller, bringing the monitor closer to the DJ, providing fast visuals of song information while mixing. The device adopts Pioneer's "P-LOCK Fader Cap," designed to prevent the fader caps from slipping.

FEATURES:

- ▶ Plug and play USB connectivity with 4-Channel deck control
- ▶ TRAKTOR Pioneer DDJ-T1 Edition 2 DJ Software included
- ▶ Specially designed user interface
- ▶ Optimized controller for highest quality sound
- ▶ P-LOCK Fader Cap lock mechanism design
- ▶ Premier built-in sound card

Pioneer

DDJ-ERGO

dj controller

This ultra-compact controller gives any music enthusiast the ability to make their own unique music mixes. Bundled with the Virtual DJ Limited Edition software by Atomix Productions, the DDJ-ERGO controller enables consumers to be creative with their music collection as soon as they take the unit out of the box. The new controller also incorporates MIDI functionality, making it possible to be used with other MIDI compatible DJ software. The stylish controller is designed using contoured edges with black, white and gradient colors and a large 115 mm platter for increased operability. The system also features Pulse Control that illuminates various areas of the controller to assist in the mixing process.

FEATURES:

- ▶ Take anywhere with USB power and plug-and-play connectivity
- ▶ Sleek, stylish ergonomic design
- ▶ Virtual DJ LE software included
- ▶ High quality built-in audio interface
- ▶ Pulse Control provides visual prompts via various types of illuminations directly on the unit
- ▶ Personalized user interface for custom audio/video control with any MIDI compatible software

Pioneer

SVM-1000

professional audio/video mixer

The world's first reference audio and video combination mixer. In addition to mixing audio and video, the SVM-1000 mixer incorporates a built-in 11-inch LCD touch-panel display, symmetric channel layout, 4-channel audio and video inputs, Still Image Sampler and hundreds of combinations of video effects. Features and audio mixing capabilities of the SVM-1000 are similar to the industry standard Pioneer DJM-1000/800 mixers, which give DJs and VJs the creative freedom to easily build and create synchronized visual effects to accompany their audio mix for a complete entertainment encounter.

FEATURES:

- ▶ 11-inch LCD touch-panel display
- ▶ Multiple channel video blending technology
- ▶ Audio/video effect unit
- ▶ AV beat effect
- ▶ Still image sampler
- ▶ 96kHz/24bit digital sampling and a 32bit digital signal processor

Pioneer

DJM-T1

2-channel traktor mixer

A high performance digital mixer featuring an operational interface devoted to the TRAKTOR™ SCRATCH DJ software without having to connect an external controller. The DJM-T1 features an internal USB soundcard, TRAKTOR software, high quality audio, and improved fader durability.

FEATURES:

- ▶ TRAKTOR series control allows access to TRAKTOR's software without the need for an additional external controller
- ▶ TRAKTOR SCRATCH DUO 2 Included
- ▶ New High Quality Fader Design
- ▶ Internal USB soundcard
- ▶ High quality sound

Pioneer

DJM-350

2-channel dj performance mixer

The DJM-350 mixer inherits similar functions and operability of the popular Pioneer DJM series of mixers often experienced in the club scene. The mixer is equipped with four kinds of effects as well as an isolated 3-band equalizer—all of which allow the DJ to make a one-of-a-kind mix. The front USB port allows users to record their DJ mixes onto USB mass storage devices, check their own mix and take it with them to listen on other devices.

FEATURES:

- ▶ Directly record to USB devices
- ▶ Enhance remixing capabilities with four types of effects
- ▶ Isolated 3-band equalizer
- ▶ Digital conversion for higher fidelity sound
- ▶ Selectable MIC/AUX channel

Pioneer

DJM-250

2-channel dj mixer

Offering the functionality of a professional mixer, but designed for the beginner DJ. The compact DJM-250 features industry-first 2-channel filter effects, eight different inputs and XLR balanced outputs.

FEATURES:

- ▶ Dedicated Sound Color Filter on each channel
- ▶ 8 flexible inputs for connecting a multitude of devices
- ▶ Premium XLR balanced outputs
- ▶ 3-band Isolator equipped on each channel
- ▶ Cross Fader Curve Adjust and Fader Start
- ▶ Play functions
- ▶ Built-in rack mount ears
- ▶ Available in Original Black or White

DJM-250-W

Pioneer

DJM-5000

professional standard
mobile dj mixer

The DJM-5000 offers new features such as multi-zone entertainment, three microphone inputs, Advanced Talk Over, 96kHz / 24-bit sampling, Sound Maximizer, MIDI mapping capability and a built-in sound card.

FEATURES:

- ▶ Industry-first Advanced
- ▶ Talk Over function
- ▶ USB audio interface equipped
- ▶ Onboard sound maximizer
- ▶ Master/Zone split output
- ▶ Fully assignable USB MIDI functionality
- ▶ Multiple mic functions, including 4 mic effects

Removable Mini XLR connector

MONO/STEREO switch

Pioneer

HDJ-1000 LTD

professional dj headphones

Many DJs are as critical with the looks of their gear as they are with its audio performance. The HDJ-1000 headphones provide the high-quality sound DJs expect as well as choices of color and style that make a fashion statement. The HDJ-1000 headphones come in two new colors, black and gold, in addition to the original chrome model. The black version resonates with a more sophisticated look, while the gold version provides a more glitzy style.

FEATURES:

- ▶ Tuned to deliver more impact in the lower bass frequencies
- ▶ Improved for better fit and comfort
- ▶ Easy fold-away structure design
- ▶ Available in gold or black

Pioneer

HDJ-1000

rekordbox

music management software

rekordbox™ music management software comes packaged with the CDJ-2000, CDJ-900, CDJ-850 and CDJ-350. This software allows DJs to create settings for their upcoming performance (either at home or in the studio) such as cue and loop points or embedding waveform or beat point data into music files. These settings can then be exported along with the music files on to a USB storage device or SD memory card, allowing the DJ optimum portability. Information such as the history of music played or cue info updated with a Pioneer player can be fed back into rekordbox™ and the content of a DJ performance can be managed with rekordbox™ either at the studio or at home. rekordbox™ supports DJ's activities, from prep at home or a studio to performance at clubs.

PioneerDJusa.com

FEATURES:

- ▶ Organizes and catalogs a DJ's entire music library
- ▶ Prepare tracks in advance
- ▶ Color code music
- ▶ Export tracks via USB device or SD card
- ▶ ProDJ Link: easily drag 'n drop music files onto your DJ player in real time connected via LAN
- ▶ Compatible with a variety of Pioneer DJ products

- rekordbox is a registered trademark of Pioneer.
- rekordbox is a music file management software developed in cooperation with MixVibes for use with Pioneer products.
- MixVibes was founded in 1999 for music software design and development with the goal of ensuring a genuine DJ experience when mixing digital audio files. Thanks to the innovative technology and quality, many musicians and DJs around the world now use MixVibes products.

DETAILED FEATURES:

Enables various settings for your DJ performance

- ▶ Create settings like cue, hot cue, loop and quantize easily on the rekordbox™ player panel while watching a song's waveform. The points that have been set and saved can be imported and used by a CDJ-2000 or CDJ-900.
- ▶ Using the Playlist function, playlists can be created to suit the DJ. Playlists can also be made from the performance history of the actual songs played.

PLAYLIST SCREEN

HOT CUE BANK SCREEN

- ▶ The points a DJ wishes to assign to the Hot Cue buttons on a CDJ-2000 can be registered in the Hot Cue Bank (CDJ-2000 only). The DJ can register points straddling a song to each of the A, B and C buttons from all the songs in rekordbox™. An infinite number of points can be registered further demonstrating the range of DJing that can be achieved with hot cues.

FREE DOWNLOAD AT:

<http://www.pioneerdjusa.com/rekordbox>

Easily export music files and settings to a USB storage device

- ▶ Music and music settings such as data, playlist, hot cue bank etc., can be exported by simply dragging and dropping them on to a USB storage device or SD memory card.

EXPORTING MUSIC

Easy performance with a USB storage device

- ▶ Bring a storage device or SD memory card with the exported songs and settings data to play with the rekordbox™ software on a CDJ-2000 or CDJ-900. The settings for a song can be assigned to a player instantly, allowing the DJ to concentrate on their performance.

Other Terminals:
USB B Connector x 1

SVM-1000

Power Requirements:
120V AC (60Hz)

Power Consumption: 58W

Weight: 28.2 lbs

Dimensions (W x D x H):
19.7" x 16.2" x 7.9"

Sampling Rate: 96kHz

Distortion Rate:
0.005% or less

Signal to Noise Ratio:
Line: 105dB

DJM-2000

Power Requirements:
120V AC (60Hz)

Power Consumption: 42W

Weight: 18.7 lbs

Dimensions (W x D x H):
16.9" x 16.1" x 4.3"

Sampling Rate: 96kHz

Distortion Rate:
0.004% (JEITA)

Signal to Noise Ratio:
Line: 107dB (LINE)

DJM-900nexus

Power Requirements:
120V AC (60Hz)

Power Consumption: 42W

Weight: 15.7 lbs

Dimensions (W x D x H):
13" x 16.1" x 4.2"

Sampling Rate: 96kHz

Total Harmonic Distortion:
0.004%

Signal to Noise Ratio:
Line: 107dB or greater (LINE)

DJM-700

Power Requirements:
120V AC (60Hz)

Power Consumption: 34W

Weight: 14.5 lbs

Dimensions (W x D x H):
12.6" x 14.9" x 4.25"

Frequency Response:
20Hz-20kHz

Signal to Noise Ratio:
Line: 104dB

Total Harmonic Distortion:
0.005% or less

DJM-T1

Power Requirements:
120V AC (60Hz)

Power Consumption: 23W

Weight: 13.5 lbs

Dimensions (W x D x H):
10.4" x 15.9" x 4.3"

Sampling Rate: 48kHz

Total Harmonic Distortion:
0.004%

Signal to Noise Ratio:
Line: 106dB or greater (LINE)

DJM-350

Sampling Rate: 48kHz
Power Requirements:
120V AC (60Hz)

Power Consumption: 17W

Weight: 7.1 lbs

Dimensions (W x D x H):
8.58" x 11.85" x 4.19"

Frequency Response:
20Hz-20kHz

Signal to Noise Ratio:
Line: 97dB (LINE)

Total Harmonic Distortion:
0.007% or less

DJM-250

Power Requirements:
120V AC (60Hz)

Power Consumption: 34W

Weight: 6.8 lbs

Dimensions (W x D x H):
9.45" x 11.82" x 4.24"

Frequency Response:
20Hz-20kHz

Signal to Noise Ratio:
Line: 74 dB or more

Total Harmonic Distortion:
0.01% or less

DJM-5000

Sampling Rate: 96kHz
Power Requirements:
120V AC (60Hz)

Power Consumption: 31W

Weight: 15.2 lbs

Dimensions (W x D x H):
19" x 8.86" x 4.24"

Frequency Response: 20Hz - 20kHz

Signal to Noise Ratio:
Line: 102dB

Total Harmonic Distortion:
0.005% or less

SPECIFICATIONS

S-DJ08

Woofer: 8"

Amplifier Output Power:
LF - 100W (FTC 1kHz, 4ohm,
THD=1%) 170W (Dynamic Power)
HF - 50W (FTC 1kHz, 4ohm,
THD=1%) 70W (Dynamic Power)

Dimensions (W x D x H):
9.84" x 15.39" x 14.61"

Weight (for pair): 59.52lbs

HDJ-2000

Frequency Range:
5Hz-30,000kHz

Impedance: 36Ω

Maximum Input:
3,500mW

Output Sound Level:
107dB/mW

Unit Type: 1.96" Dome

Weight: 10oz
(Excluding Cord)

HDJ-1000

Frequency Range:
5-30,000Hz

Impedance: 40Ω

Maximum Input:
3,500mW

Output Sound Level:
107dB/mW

Unit Type: Tightly closed
dynamic headphones

Weight: 9.5oz
(Excluding Cord)

S-DJ05

Woofer: 5"

Amplifier Output Power:
LF - 22W (FTC 1kHz, 4ohm,
THD=1%) 50W (Dynamic Power)
HF - 18W (FTC 1kHz, 4ohm,
THD=1%) 30W (Dynamic Power)

Dimensions (W x D x H):
7.28" x 11.85" x 10.16"

Weight (for pair): 29.54lbs

HDJ-1000 LTD

Frequency Range:
5-30kHz

Impedance: 36Ω

Maximum Input:
3,500mW

Output Sound Level:
107dB/mW

Unit Type: 50mm dia. dome type

Weight: 9.52oz
(Excluding Cord)

HDJ-500

Frequency Range:
5-28,000Hz

Impedance: 45Ω

Maximum Input:
2,000mW

Output Sound Level:
105dB/mW

Unit Type: 40mm dia. dome type

Weight: 6.8oz
(Excluding Cord)

SUGGESTED SYSTEMS

Combine these suggested Pioneer DJ products for the best possible sound quality and creative performance

DVJ-1000s WITH SVM-1000

CDJ-2000s WITH DJM-2000
