

LED LIGHTS FOR EVERYDAY LIFE

Perform

Music Lights and Accessories

Perform

Music Lights and Accessories

A glowing LED light fixture hangs from the top right, casting a bright light. Below it, a mixing console is visible, featuring numerous faders with white and blue knobs. The background is dark, emphasizing the light and the equipment.

LED Lights for Everyone

Mighty Bright wants everyone to have light – wherever and whenever they need it. Based in Santa Barbara, CA, Mighty Bright designs and manufactures portable LED lights and LED task lights for home and office. Our lines of eco-friendly LED lights make your life easier – whether you use them to perform your favorite tune, read, craft, or even camp. Mighty Bright lights blend ease of use and affordability with impressive functionality, durability and portability. No matter your illumination needs, Mighty Bright is there to fill them.

The Highest Quality

Mighty Bright integrates high quality materials and intelligent design with the latest in LED and optical technologies offered at an affordable price. An established leader in the LED market, Mighty Bright's product lines are found across multiple retail channels worldwide. Fresh product concepts, superior product quality, and attentive customer service generate consumer demand, inspire multiple purchases, and create loyalty among our customers.

100% Satisfaction Guarantee

Mighty Bright resellers tap into our loyal, and expanding, customer base. Since our Santa Barbara team is focused on making a difference in our customers' lives through light, each product is backed by the Mighty Bright 100% Guarantee and comes wrapped in the service-oriented culture that permeates Mighty Bright. We follow up with customers personally from our Santa Barbara headquarters to ensure they are as impressed by their buying experience as they are by our products.

A Green Future with LEDs

LED lights offer superior light, a long service life, and rugged durability – all while using less energy. LED lights are a natural choice for discerning consumers who look for efficiency, quality and longevity.

The wide acceptance of LED light technology has grown rapidly as LED lights have proven to be vastly superior to incandescent bulbs. Typical LED lights have lifetimes of up to 100,000 hours or more, and produce minimal heat. Also, they are generally far more resistant to physical trauma than incandescent, halogen, and fluorescent lights.

As LEDs become more pervasive, the methods used to measure their light output have evolved. The measurement of light in lumens quantifies the magnitude of visible light produced by a source. Lux measures the intensity of light on an illuminated surface. Lumen and lux measurements provide a standard for evaluating light sources, and are helpful in the comparison of LED lights.

Play into the Night

Encore

LUMENS	PRODUCT WEIGHT	BATTERY LIFE	AC PORT?
28	4.3 OZ	5 hrs.	YES

- Six energy-efficient LEDs cast bright white light
- Durable LEDs last 100,000 hours - no replacement necessary
