WHAT GREAT SYSTEMS ARE BUILT ON™

Middle Atlantic Products, an AV brand of Legrand, has manufactured exceptional support and protection products to mount integrated AV systems in Residential, Commercial, Broadcast, and Security applications since 1979. Offering innovative system enclosures, tech-enabled furniture and power products as well as Wiremold® cable management and C2G® connectivity solutions, Middle Atlantic is committed to providing complete and unmatched AV infrastructure solutions and services.

At the heart of a great AV experience, you'll find Middle Atlantic Products - what great systems are built on™.

NEW

MOST VERTICAL VERSATILITY

LOW-PROFILE WALL CABINET

The VWM Series is the industry's highest capacity and most versatile low profile wall cabinet. This patent-pending design features multiple planes of vertical mounting, it allows deeper equipment to be mounted parallel to the wall, and is the first low profile cabinet to offer intuitive mounting for small devices. VWM cabinets are ideal for small to medium networking, surveillance and monitoring, distributed audio and paging systems. Select one of our pre-configured models or tailor a VWM cabinet to order for the specific needs of the application at middleatlantic.com.

- Maximizes space and expertly handles the highest density of components
- Unique design allows mounting of rackrail where it's needed: left, center or right justified and multiple vertical positions
- Choose pivoting or fixed rackrail: with multiple RU options available, all rackrail featuers both 10-32 thread and cage nut

- Outfit the cabinet's backpan or door with Lever Lock™ to mount small devices
- Available in 10˝ or 16˝ depth from the wall (up to 5 or 8RU) and 36˝ or 42˝ height along the wall (up to 31˝ or 37˝ useable depth)
- Supports thermal management, cable integrity, power distribution and maximizing space while providing a secure location for components of all sizes in an all-in-one system

ALSO AVAILABLE IN STANDARD WIDTHS

A WIDER RACK
THAT SAVES SPACE

The innovative SR Series Pivoting Wall Rack combines the capacity of a floor standing rack with the compact footprint of a wall rack to handle a broad range of AV, security, broadcast and data installations

- Pivots 90° on floor base to easily access rear equipment connections for more overall space savings than a full height, floor standing enclosure

- Installation ease with the patented Tool Free Quick-Mount™ system for center section mounting to the backpan

- "Bonus" 4 rackspaces in base for mounting a UPS or other equipment

- Additional 3 rackspaces at the top for patching and other small equipment mounting

- Industry's first seismic rated wall rack series, delivering tip and/or vibration resistance when its desired or required

- Standard, adjustable front 10-32 threaded rackrail with numbered spaces for built-in cable management

- Flexible cable entry access at the top, bottom and sides of the rack with additional knockouts for electrical box and fans

- Sub plate allows mounting of 89D blocks and other connectivity accessories

- Standard options available to meet the needs of your installation requirements:
  - Corner mounting or side-by-side rack installation capability with the optional zero clearance latch
  - Choices of plexi, solid, or vented doors available depending upon desired level of visibility and need for additional airflow

SLIDING MOUNTING PLATE
CONCEAL EQIUPMENT BEHIND THE DISPLAY

The Proximity Series Mounting Plate features an unrivaled, patent-pending sliding design that pulls out from behind the display for effortless servicing and concealment of equipment

- Removable, Lever Lock™ plate allows post-installation accessibility without disturbing the display

- Patented UMS hold pattern simplifies mounting of devices

- Wall mountable for universal use with any display

NEED MORE STORAGE FOR LARGER, SOPHISTICATED AV SYSTEMS?

The Proximity Series In-Wall Boxes

- The industry's only in-wall boxes built for small device mounting flexibility with patented Lever Lock™ technology built-in

- Four levels of mounting space offer unmatched configurability to maximize space for storage of gear

- Boasting the industry's first AV storage solution for 24˝ stud bays, the in-wall boxes now include 3 sizes to fit the needs of the system: 22˝x14˝, 14˝x14˝, and 9˝x14˝

- Proximity box covers now available to restrict visibility and access to equipment

DISPLAY MOUNTING
SAFE, RELIABLE, EFFICIENT
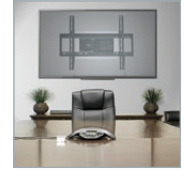

VDM Series Vision Display Mounts are designed to provide safe, reliable display mounting with the professional features that enable efficient installation.

- Proximity mounting plate included with most standard profile mounts to enable location of the AV system directly behind the display

- Post-install leveling mechanism enables quick micro-adjustment of horizontal plane of display

- Safety locking features keep the display securely mounted

- Certified to UL 2442 for safe, reliable installs

- Available in standard profile or low profile with kick stand for additional space between the mount and wall for ease of installation and servicing

- Motion, tilt and fixed models available

- Accommodate VESA patterns up to 800mm

DESIGNED FOR FLEXIBLE APPLICATIONS
AND EFFICIENT INSTALLATIONS

These mounts incorporate a modular design that accommodates multi-display wall, ceiling, menu board, and digital signage applications.

- The modular design allows the mount to be deployed in different configurations including on-wall, ceiling, or back-to-back for the same install experience no matter the application

  - Same trusted mounting method found in DisplayStation & C5 Credenza Monitor Mount products

- Compatibility with Proximity Series Sliding Mounting Plate and Proximity Series In-Wall Boxes enables location of the AV system directly behind the display

- Certified to UL 2442 for safe, reliable installs

- Post-install leveling mechanism enables quick micro-adjustment of height, depth and horizontal plane of display

- Patent-pending bracket design allows up to 20° of tilt on the display

- Safety locking features keep the display securely mounted

A THING OF ADJUSTABLE BEAUTY
FOR EVERYONE AND EVERY SPACE

The FlexView Series IFP Cart line is the paragon for interactive flat panel mounting with a triumvirate of an unmatched systems approach, accessibility for all heights, and artful aesthetics that blend the technology into any space.

- Superior capacity mounting for IFPs or displays ranging from 60"-102", with a large, 1200x600 VESA pattern and a robust weight capacity of 300lbs

- Unmatched equipment storage with 2RU vertical mounting and removable, tool-free Lever Lock™ for small device mounting as well as power distribution built in

- Available in white and black bases with premium aesthetics set this solution apart from all others

  - 5 optional finishes in wood and textured, metal HPL colors for interesting design elements to complement the décor in any space

- Offering includes fixed or height adjustable, ADA compliant electronic lift models

  - Height adjustability from 40" to 60" to center of the display paired with the unimpeded, scalloped base ensures the e-lift design is compliant with ADA standard 803 for reachability, achieving up close display interaction at the desired ergonomic setting for any user

- Finishes correspond with Pre-configured technical furniture solutions, providing cohesive designs for any learning or meeting space

ULTIMATE SYSTEM RELIABILITY

FOR AV TECHNOLOGY

Featuring attractive styles and finishes reflective of commercial interior design trends, the T5 Series offers discreet storage and care for AV gear within a beautiful furniture solution.

- Each T5 solution includes a table top, support pedestals and a separately shipped Tech Kit that allows integration to begin immediately. The Tech Kit is optimized for the designated table size and is comprised of the critical infrastructure that supports reliable AV systems:

  - Patent-pending swing-out pedestal rack can be located in the table pedestal of choice

    - Innovative flexibility for up to 3 RU of sideways rackmounting, small device mounting or a combination of the two
    - Includes three tool-free Lever Lock™ plates for mounting small devices

  - Wiremold® InteGreat Table Boxes in black or silver with 2 retracting HDMI cables and 2 AC outlets for power and connectivity at the surface. Table boxes and cable retractors are concealed by the table's pedestal

  - Vertical power distribution

  - Cable management strips and bridge lances

- Styles and finishes correspond with Pre-configured C5 Series Credenzas, providing a cohesive meeting space design

- Pedestal locks to secure equipment within

THE MOST ELEGANT SOLUTION

IN HEIGHT ADJUSTABILITY AND ADA

Pioneering the path to designer, height adjustable technical furniture—the L7 Series Lectern, a pinnacle of the workspace desired, height required and aesthetically inspired.

BUILT FOR INTEGRATORS

- Welded steel frame with configurable storage ships assembled allowing the integrator to immediately start the installation in the shop or on-site

- Additional small device storage equipped with removable, tool-free Lever Lock™ small device mounting hidden just below the worksurface

- Integrated power, cable and thermal management for ultimate system reliability

- Popular AVIP connectivity plates for higher education application

DESIGNED FOR EDUCATORS

- Ergonomically engineered to adjust to varying height equirements of its users via electronic lift with 10" of vertical adjustment

- Design complies with ADA, providing ample room for wheelchair clearance and minimum reach requirements

- Generous 61"x31" surface provides adequate workspace to accommodate the personal devices and effects of transient professors

- Wireless charging pad to charge Qi cellular devices during class

- Additional BYOD connectivity with plenty of USB and AC outlets

- Storage for markers, microphones and wires

RACKLINK™ USER INTERFACE

VERSATILE, VALUE-ORIENTED
INTELLIGENT POWER

Select Series PDU with RackLink™ simplifies installation and reduces the cost of service by providing intelligent power optimized for AV systems.

- Individual IP outlet control of up to 8 outlets
- NEW vertical PDUs as well as compact, half rack, and horizontal form factors
- Multiple IP autoping and recovery ensuring optimal system functionality
- Control start-up and/or shut-down with remote sequencing
- Easy set-up and control through RackLink user interface

- MOV surge and spike protection
- Fast and easy commissioning
- Automatic actions improve system reliability
- Automatic notification of connection status
- Seamlessly interfaces with 3rd party AV control systems and cloud platforms for scheduling, control, reporting and customized actions

SIMPLE, LOCAL, SECURE CONTROL

TO POWER DEVICES

Ideal for powered loudspeakers, the Controlled Wall Plate delivers exceptional value without the complexity and expense of breaker panels or multiple high/low voltage boxes.

- Dry contact closure input with no external voltage required for control

- Not susceptible to voltage drops on control wire

- Rear integrated contact closure to alleviate the need to run the control wire to the front of the wall plate

- Neutrik PowerCON® receptacle that locks the power cable to the device and wall to mitigate the potential of accidental unplugging

- Compact, Decorator-style insert complete with metal wall plate to fit any standard single gang box

- LED indicator for power

- Available with 20A PowerCON® receptacle

HIGHEST AVAILABLE
## POWER

Design oin reliability with the universal DC power solution equipped with the highest available power in the market—complete with superior current capacity and an industry-leading quantity of outputs!

- Industry-leading number of outputs with power distributed to as many as 24 devices

- Maximum current capacity, up to 300W of power
  - 5V, 40A Max (200W)
  - 12V, 25A Max (300W)
  - 24V, 12.5A Max (300W)
  - 12V and 24V, 12.5A and 6.25A respectively (300W)

- Reliable multi-level protection on both AC input and DC outputs to ensure maximum uptime

  - MOV surge and overload protection on the AC input

  - Individual redundancy built in with auto-resetting PTC overload protection on each individual output

- Greater mounting flexibility with multi-mount design that fits in 1 rackspace or can mount at the back or side of the rack simply by rotating mounting brackets

- LED indicator lights alerting maximum capacity on each voltage bank

- Leads trimmed to suitable length leaves less cable to manage, enhancing aesthetics and increasing airflow

- Ultra-quiet, thermostatic temperature controlled fan with automatic speed adjustment

CONNECT UP TO 24 DEVICES!

300 WATTS OF POWER!

Part #	Description	Outputs	Watt Max Output
PD-DC-200-5V	maximum power, 200W DC power distribution	5V	200
PD-DC-300-12V	maximum power, 300W DC power distribution with 12V outputs	12V	300
PD-DC-300-24V	maximum power, 300W DC power distribution with 24V outputs	24V	300
PD-DC-300-12-24V	maximum power, 300W DC power distribution with split-bank	12V and 24V	300

MAXIMUM VOLTAGE
FLEXIBILIITY

Clean up the rack by replacing messy, space consuming wall warts and power strips with a DC power solution designed for maximum voltage flexibility.

- Multiple voltage outputs (5V, 12V, 18V*, & 24V*) supported in a single box form factor
- Reliable multi-level protection on both AC input and DC outputs to ensure maximum uptime
  - MOV surge and overload protection on the AC input
  - Individual redundancy built in with auto-resetting PTC overload protection on each individual output

*5V USB ports provided to conveniently power compatible products

- 45W compact and 125W multi-mount systems support a wide range of applications from small systems in tight spaces to enclosures in large distributed systems
- LED indicator lights showing activity on each output and indicating capacity on each voltage bank

PD-DC-125R	multtli-mount 1 RU universal DC power distribution	5V, 12V, 18V and 24V	125W

POWER
Premium Online Series UPS Backup Systems

UPS-OL1500R

UPS-OL2200R

UPS-OL3000R

PERFECT, ISOLATED,
UNINTERRUPTED BACKUP

When failure is not an option, the Premium Online Series UPS Backup Power Systems provide the cleanest power for mission critical, sensitive, and high-end systems.

- Permanent connection to the battery for zero transfer time eliminating system disruptions and guaranteeing maximum uptime

- Complete isolation and conditioning of output power with double conversion topology providing the cleanest power possible

- Reduced ambient noise with quiet variable speed fans

- Longest run time available in this form factor with the capability to add up to 10 expansion battery packs

- Front accessible, hot-swappable batteries to eliminate downtime related to UPS power maintenance

- Pure sine wave output waveform automatically corrects over-voltage and under-voltage conditions

- Non-critical load shedding

- Monitoring and reporting for real time battery life notifications

- Removable LCD display & power switch for remote accessible functionality

part of the family of UPS solutions

LOW LOSS POWER
INSERTION WITH 4K60 AV

The High Speed HDMI Cable with Built-In Power Inserter 4K60 is the ideal solution for supporting HDMI bus-powered devices such as extenders, active cables, AOC cables or signal-sensing switches. This cable eliminates the need for separate voltage inserters or adapters, which increases reliability

- Supports up to a 4K resolution at 60Hz
- Low loss power insertion
- Attached Micro USB female power inserter
- Micro USB male to USB-A male cable

- Attached power inserter isolates the power from the source device and provides dedicated power to support HDMI switching, splitting, and extension accessories
- Allows for the necessary and proper voltages for the hardware "handshake", HDCP key authentication and exchange, EDID information exchange and hot plug connection detect

Part #	Description	Length	Resolution
56790	High Speed HDMI Cable with Built-In Power Inserter	6ft	4k at 60Hz
56791	High Speed HDMI Cable with Built-In Power Inserter	10ft	4k at 60Hz
56792	High Speed HDMI Cable with Built-In Power Inserter	15ft	4k at 60Hz

CODE COMPLIANT
HDMI® THAT MAINTAINS SIGNAL

The plenum-rated HDMI® CL2P cables with gripping connectors are designed to be installed in AV applications requiring HDMI® features while meeting strict building code requirements.

- CL2P plenum rated jacket for in-wall installation in plenum, riser, and general spaces
- Gripping connector for 3X greater retention than standard HDMI® connector
- High speed cables support up to 4K video resolution at 50/60 Hz

- Standard speed cables support up to 1080i video resolution
- Gold plated connectors
- TAA compliant

Part #	Description	Length	Resolution	Jacket Rating
42528	CL2P High Speed HDMI® cable with gripping connectors	15 ft.	4k	CL2P Plenum Rated
42529	CL2P High Speed HDMI® cable with gripping connectors	25 ft.	4k	CL2P Plenum Rated
42530	CL2P Standard Speed HDMI® cable with gripping connectors	35 ft.	1080i	CL2P Plenum Rated
42531	CL2P Standard Speed HDMI® cable with gripping connectors	40 ft.	1080i	CL2P Plenum Rated
42532	CL2P Standard Speed HDMI® cable with gripping connectors	50 ft.	1080i	CL2P Plenum Rated

NEW

UNSURPASSED
PULL STRENGTH SPECS

Active Optical HDMI® Cables can be used in plenum applications where standard Active HDMI cables can't go. The cable diameter is smaller than copper and more flexible which makes it easier to install in tight spaces. Constructed from fiber strands, this cable reduces the risk of EMI/RFI so performance is stable even when high resolution & consistent display are critical. CL3-rated jacket for in-wall installations

- 110 lb. pull strength specification—far surpassing the 20 lb. pull rating of other cables on the market
- 6mm bend radius
- Supports up to a 4k resolution
- No external power required
- Plenum rated jacket
- Now, in new lengths—23ft-164ft!

Part #	Description	Length	Jacket Rating
41378	High Speed HDMI® Active Optical Cable 23 ft.	4K	CMP (Plenum)
41370	High Speed HDMI® Active Optical Cable 33 ft.	Up to 328ft	Wall Plate/Dongle Kit
41371	High Speed HDMI® Active Optical Cable 50 ft.	Up to 328ft	Dongle/Wall Plate Kit
41372	High Speed HDMI® Active Optical Cable 75 ft.	Up to 328ft	Dongle/Dongle Kit
41373	High Speed HDMI® Active Optical Cable 100 ft.	Up to 328ft	Box/Box Kit
41374	High Speed HDMI® Active Optical Cable 131 ft.	Up to 328ft	Dongle/Dongle Kit
41375	High Speed HDMI® Active Optical Cable 164 ft.	Up to 328ft	Box/Box Kit

HDMI® EXTENSION
ON A BUDGET

The HDMI Over Cat5/6 Extender is ideal for extending digital video and audio up to 164ft over new or even existing Cat5 or Cat6 cable infrastructure for cost-effective reliability, while maintaining high performance quality.

- Requires a single Cat5 or Cat6 cable
- Supports 1080p and 3D
- HDMI transfer rate of 6.75Gbps
- International power supply also included

Part #	Description	Length	Resolution
60160	HDMI Over Cat5/6 Extender	Up to 164ft	1080p

ONE CABLE
FOR AV AND DATA

This HDBaseT™ extender is an ideal solution to deliver 4K HDMI® and USB signals over a single cable from a computer or media player to an interactive whiteboard, interactive projector, touchscreen or to connect a conference camera system.

- Utilizes HDBaseT 2.0 Chipset VS2310

- HDBaseT Certified

- Enables extension up to 328 feet (100 meters)

- Supports HDMI 4K 3840 x 2160 resolution at 60Hz with 4:2:0 color space

- Supports USB 2.0 signals and functionality (4 USB ports available at the receiver end)

- Extends IR signal and serial control communication and features

- Supports EDID pass-through and HDCP 2.2

Part #	Description	Signal Type	Distance	Resolution	Form Factor	Device Type	Power Supply Requirement
29510	HDBaseT HDMI + USB Extender	HDMI & USB	328ft	4K 3840x2160	Box/Box	Kit	1*

*Requires power at the transmitter end of the solution

NEW

CONNECTIVITY FLEXIBILITY
WITH INTUITIVE OPERATION

Perfect for collaboration spaces including conference rooms and huddle spaces, this multi input converter switch offers four audio/video inputs which allow laptops, tablets, or other source devices to connect to one HDMI display. While manual switching is available when more control is desired, the auto switching feature simplifies the user experience by eliminating the need to interact with the device other than plugging in a laptop or tablet.

- Ideal for collaboration space applications
- Switch between DisplayPort, 2 HDMI, and VGA audio video inputs
- Convert a DisplayPort or VGA video and embed 3.5mm stereo audio signals to HDMI audio/video output
- Supports automatic, priority, manual, and serial control switch options

- 4K support for HDMI and DisplayPort
- Maximum VGA resolution: 1080p 60Hz
- Maximum DisplayPort resolution: 3840x2160 at 30Hz
- Maximum HDMI resolution: 3840x2160 at 30Hz
- TAA Compliant

Part #	Description	Resolution	Form Factor
40848	DisplayPort™, HDMI® and VGA to HDMI Adapter Converter Switch	Up to 3840x2160 at 30Hz	Box

USB EXTENSION
ON A BUDGET

Extend USB 2.0 signals for a single USB device up to 150 feet over a Cat5 or Cat6 cable. The 1-Port and 4-Port USB 2.0 Over Cat5/Cat6 Extenders are perfect for conference rooms and huddle spaces in need of innovatively simple, yet powerful solutions for extending USB signals beyond their native 16.4 foot length limitation.

- Supports High-Speed USB devices up to 480Mbps
- Extends a USB connection up to 150ft
- Suspend/resume detection
- Hot pluggable
- Plug and play, with no software or drivers required

Part #	Description	Length	Signal Type	Form Factor
54284	1-Port USB 2.0 Over Cat5/6 Extender	Up to 150ft	USB 2.0	
54285	4-Port USB 2.0 Over Cat5/6 Extender	Up to 328ft	USB 2.0	Box/ Box Kit

USB SPEED
FOR EVERY NEED

Extend a SuperSpeed USB 3.0 signal 5m or connect two extenders to reach lengths up to 10m from a desktop, laptop, or remote terminal to a PTZ camera, interactive display, hard drive, or other peripheral device with this active USB 3.0 extension cable.

- Extend all functions of USB 3.0 up to 5m (16.4 ft.) or connect up to 2 extenders to reach lengths up to 10m (32.8ft)
- Data transfer rates up to 5Gbps for maximum speed in data delivery
- Backwards compatible with USB 2.0 and USB 1.1 devices
- Bus powered to eliminate the need for external power adapters
- Plug and Play—no driver required

Part #	Description	Length	Signal Type	Form Factor
39939	5m USB 3.0 Active Extension Cable	5m (16.4 ft.)	USB 3.0	Extension Cable

WIREMOLD®
Wiremold Box with HDMI® + USB and Outdoor Power

TRANSFORMING MEETING ROOMS
INTO WELL-CONNECTED SPACES

- Wiremold boxes with HDMI® + USB now available

- Elegant solution for extending power, communication and AV to the meeting presenter's point-of-use

- Boxes can be integrated with Wiremold Cable Retractors to keep cables safe and organized

- Attractive design with brushed, anodized cover in either black or aluminium finishes, with beveled edges and a "soft-touch" handle

GROUND BREAKING OUTDOOR POWER
IN-GROUND AC DISTRIBUTION BOX

- First UL-Listed while in use in-ground box

- Tough enough to withstand a 5,000 lb load

- 20-amp, 30-amp and communications/AV options

- NEMA 6P wiring enclosure rated for wet locations

- Patented "air pocket" design keeps connections safe from water snow and ice in all seasons

- Mounts flush with any outdoor ground surface

SATISFY THE POWER HUNGRY
OUTDOOR CHARGING STATION

Legrand Outdoor Charging Stations provide an ideal solution for employees, students, and guests to charge their mobile devices in outdoor spaces.

- 2- or 3-gangs of capacity for power and/or low voltage devices

- NEMA 3R rated for outdoor locations

- Choose from 3 versions: power pedestal, accent light or full area light

- Available in black, bronze, silver or custom finishes

- Visit www.legrand.us/outdoor for more information.

COMPLETE RACK
ILLUMINATION FLEXIBILITY

The Rackmount LED Work Light is an integrator-focused rack lighting option offering unparalleled visibility during installation and servicing. Designed with flexible mounting and positioning capabilities, ensures premium illumination where the integrator needs it

- Complete flexibility to illuminate anywhere in the rack
  - The only rack light with both vertical and horizontal mounting capabilities to light anywhere it's needed or space is available
  - Adjustable-angle light bar can be positioned so that its bright white LEDs will maximize full rack height illumination

- Two models provide the freedom to choose the level of lighting needed for the size of the rack or installation: Single light or Dual light with interconnect cable.

- Ships with multiple power connections for expanded international application

- Low-profile, unobtrusive design won't impose on the installation and serviceability of the enclosure

LT-CABUTL-SINGLE	single rackmount LED work light, includes light bar with white leds, international power supply, cabinet attachment brackets
LT-CABUTL-DUAL	dual rackmount LED work light, includes light bars with white leds, international power supply, interconnect cable, cabinet attachment brackets

11.5˝ depth shelf shown

Any RSH face can be cut to accommodate multiple components.
8˝ depth 1 RU model shown

ADVANCED
IN DESIGN

RSH Series Custom Rackshelves in single-rackspace size feature an advanced design unlike any other custom rackmount product.
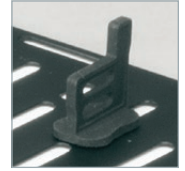

- The industry's shortest custom rackmount, occupying only a single rackspace
- Unique 'face-after' design allows for easy installation and switch-out of components
- Tool-free shelf assembly in seconds
- Choice of 11.5˝ or 8˝ depth shelf

- Add additional small devices and manage cables effectively using the patented universal mounting pattern
- Twist and lock rear stop brackets enable quick and fine adjustment of component positioning
